State College, PA 16801

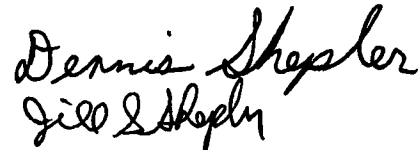

Dear Mrs. Elliott:

We are writing in response to the Public notice received regarding the request by PPL for a permit that will potentially affect waterways, wetlands, and possibly the wells of hundreds of property owners surrounding PPL property.

We have great concerns about the potential affect that withdrawing 1.0 million gallons per day of groundwater may have on our property and others.

If this comes to pass, we need at least 30 days notice before drilling so we can have our well tested. PPL representative Joseph Scopelliti could not guarantee that our well would not be affected by proposed drilling.

Thank you.

Dennis Shepler
