Reply to application # NAB 2008-01401-P13 BBNPP  
Bell Bend Nuclear Power Plant

Attn: Mrs. Amy Elliott

My wife and I are retired senior citizens residing within the boundary of the proposed BBNPP project. We are totally against this project.

Our health and quality of life will be adversely affected if this permit is issued. The daily stress associated with this project and the impact it is having on our health and personal lives is ongoing.

The affect it will have on my personal property is also a great concern. To include my well water, air quality, property value, and future up keep and repair.

Peace and tranquility of everyday life is also a issue. We enjoy living here and enjoy our backyard and property. Our wood lot is home to many hawks, owls, birds, and a variety of wild life which we enjoy watching.

We do not wish to have our life style  
or surroundings altered in any way. We  
do not want this project in our back yard.

Therefore, we request the U.S. Army Corps of  
Engineers (Baltimore District) not issue a  
permit for this project.

Thankyou for your Consideration,

Ronald + Elizabeth Samuels
