LISLE, ILLINOIS 60532-4352

MAR 27 2012

Jeffrey D. Forman, M.D.  
Radiation Safety Officer  
American Oncologic Associates  
of Michigan, P.C.  
70 Fulton Street  
Pontiac, MI 48341

Dear Dr. Forman:

We have issued a corrected copy of Amendment No. 22 to your NRC Material License No. 21-26488-01. **We have removed two dates from the tie-downs listed in item 15.B., in accordance with current NRC licensing policy. We have also revised the date for the tie-down listed in item 15.C.** The date listed previously, for item 15.C. in Amendment Nos. 21 and 22, was incorrect. Review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U. S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

**Please note that you are required to notify the NRC of any name change and/or Transfer of Control, in accordance with 10 CFR 35.14(b)(4) and/or 10 CFR 30.34(b), respectively. A copy of Information Needed for Transfer of Control is attached, for your reference.**

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions. Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

NRC's Regulatory Issue Summary (RIS) 2005-31 provides criteria to identify security-related sensitive information and guidance for handling and marking of such documents. This ensures that potentially sensitive information is not made publicly available through ADAMS, the NRC's electronic document system. Pursuant to NRC's RIS 2005-31 and in accordance with 10 Code of Federal Regulations 2.390, the enclosed license document is exempt from public disclosure because its disclosure to unauthorized individuals could present a security vulnerability. The RIS may be located on the NRC Web site at: <http://www.nrc.gov/reading-rm/doc-collections/gen-comm/reg-issues/2005/ri200531.pdf> and the link for frequently asked questions regarding protection of security related sensitive information may be located at: <http://www.nrc.gov/reading-rm/sensitive-info/faq.html>.

The enclosed document contains sensitive security-related information.  
When separated from this cover letter this letter is uncontrolled.

J. Forman, M.D.
