Jacqueline D. Cook  
Senior Health Physicist

---

Please note that I reviewed your renewal application utilizing the guidance found in NUREG-1556, Vol. 9, Rev. 2 (<http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v9/r2/>).

- ✓1. Please note that it is NRC policy to not recognize an Alternate Radiation Safety Officer (ARSO) on a license; however, the licensee can do so internally at their discretion.

The Radiation Safety Officer (RSO) is responsible for the overall management of the radiation safety program; identifying radiation safety problems, initiating, recommending or providing corrective actions; verifying implementation of corrective actions; ensuring compliance with the Commission's rules and regulations and conditions of the license. An RSO should actively participate in the day-to-day management of the radiation safety program. Although the performance of certain radiation safety tasks may be delegated by the RSO to other individuals (such as an ARSO), the responsibility for the overall effectiveness of the radiation safety program and for compliance with NRC rules and regulations and conditions of the license reside with the RSO.

Therefore, please note that with the issuance of the renewal, Mrs. Mary Hennings-Frank will no longer be listed as an ARSO on the license.

Please acknowledge your understanding of our policy.

- ✓2. What is Marilyn Espino-Maya's title – M.D., D.O., etc?
- ✓3. A. Please specify the direction of north (N) and the scale used for the 1222 W. Cherry location in Vermillion, South Dakota.
- ✓3. B. Please indicate the scale used for the Watertown, South Dakota and the Madison, South Dakota facility diagrams.
- ✓4. Please provide the following: A statement that: "We reserve the right to upgrade our survey instruments as necessary as long as they are adequate to measure the type and level of radiation for which they are used."
- ✓5. Please provide the following statement: "We have developed and will implement and maintain written procedures for area surveys in accordance with 10 CFR 20.1101 that meet the requirements of 10 CFR 20.1501 and 10 CFR 35.70."
- ✓6. Please provide the following statement: "We have developed and will implement and maintain procedures for safe use of unsealed byproduct material that meet the requirements of 10 CFR 20.1101 and 10 CFR 20.1301."
- ✓7. Please provide the following statement: "We have developed and will implement and maintain written procedures for safe response to spills of licensed material in accordance with 10 CFR 20.1101."
