Office of New Reactors

David B. Matthews, Director
Division of New Reactor Licensing
Office of New Reactors

Barbara K. Gusack, Director
Division of Program Management, Policy Development & Analysis

FROM: Michael E. Mayfield, Director */RA/*
Division of Advanced Reactors and Rulemaking
Office of New Reactors

SUBJECT: PRIMARY AND SECONDARY REVIEW RESPONSIBILITIES OF
STANDARD REVIEW PLAN NUREG-0800 CHAPTERS FOR DESIGN
CERTIFICATION AND COMBINED LICENSE APPLICATIONS

Enclosed is a table that shows Primary and Secondary review responsibilities for various Standard Review Plan (SRP) NUREG-0800 sections after re-alignment of the technical branches within the Office of New Reactors (NRO) in the reorganization of 2011. This table mirrors the individual chapters and sections of the SRP and shows Primary and Secondary responsibilities as shown in the SRP sections issued on or after March 2007. After detailed consultation with the individual branches within the NRO Divisions (see Yellow Ticket 2012-0066), this table has been revised appropriately to align with the Primary and Secondary review branches post-reorganization.

CONTACT: Ram Subbaratnam, NRO/DARR
301-415-1478

As result of this reconciliation effort, there were some minor conflicts identified with the Primary review responsibilities. These conflicts were dispositioned by the divisional Technical Assistants and were aligned to reflect current assignments. There were six new sections that were added to the SRP subsequent to the March 2007 revision, which reflect new review assignments. The staff also identified several revisions to the Secondary review responsibilities which were suitably updated. We wish to thank staff for their diligent efforts in updating this table. The New Reactor Licensing, Planning and Scheduling Branch will update the data in Enterprise Project Management to align with this table.

Enclosure:
As stated

As result of this reconciliation effort, there were some minor conflicts identified with the Primary review responsibilities. These conflicts were dispositioned by the divisional Technical Assistants and were aligned to reflect current assignments. There were six new sections that were added to the SRP subsequent to the March 2007 revision, which now show new review assignments. Also staff identified several revisions to the Secondary review responsibilities which were suitably updated. We wish to thank staff for their diligent efforts in updating this table. The New Reactor Licensing, Planning and Scheduling Branch will update the data in Enterprise Project Management to align with this table so that it correctly reflects what is currently in the SRP.
