(NOTE: This will be used as the
Documents Title in ADAMS)

I called Dr. DeVito to ask about his renewal application. The application states Suite 301 but the current license says 3rd floor. Dr. DeVito stated that they are still in the same locations of use as the initial license and that they do occupy the 3rd floor. I questioned Dr. DeVito's submittal about only having 1 hour for initial radiation training. He said that he normally only uses personnel that are experienced in Laboratory radiation material use and that the one hour is sufficient like requalification training. He said that if he used someone with no experience, that they would undergo a longer initial training. Dr. DeVito also said that they do more intensive training about every 5 years when they bring in a contractor to give the training.
