Docket: 030-19521
License: 50-19913-01
Control: 576941

Dear Mr. Davis:

This is in reference to your letter dated February 6, 2012 requesting an amendment to Nuclear Regulatory Commission License No. 50-19913-01. In order to continue our review, we need the following additional information:

1. In order to add Dr. Kevin L. Ketchum as the Radiation Safety Officer (RSO), please fill out the attached NRC Form 313a(RSO) to document he is qualified under pathway 4. Dr. Ketchum can follow pathway 4 on the 4th page of the form because he is currently an Authorized User on the licensee's license. Please check the 4th pathway box on page 4.
2. Use the table in Section 3.C on pages 3 and 4 in the form to describe training in radiation safety, regulatory issues and emergency procedures for medical uses under 35.100 and 35.200.
3. Complete Part II of the form by providing a Preceptor Attestation letter. The preceptor must be a qualified RSO.

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Medical, Academic, and Industrial Uses of Nuclear Material**; then **Regulations, Guidance, and Communications**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 7:00 a.m. to 6:30 p.m. EST, Monday through Friday (except Federal holidays).

We will continue our review upon receipt of this information. Please reply to my attention and refer to Mail Control No. 576941. You may attach your response as a PDF document via e-mail, or fax it to (817) 200-1188. If you have any technical questions regarding this deficiency letter, please call me at (817) 200-1596.

If we do not receive a reply from you by **May 4, 2012** we will assume that you do not wish to pursue your amendment request and the action will be voided without prejudice to the resubmission of a new amendment request.

Sincerely,

Lizette Roldán-Otero, Ph.D.
