**Attachments:** request-amend-Na-22.doc

*Traci - this is to assign Rich Struckmeyer the request for license amendment submitted by Bill Yelon in the e-mail below and the attached file. Please enter this e-mail and the attachment into ADAMS and enter in LTS as a licensing action separate from the action underway for the same license under MCTL number 577365. I will place a copy of this e-mail on your chair. Thank you. Kevin O'Sullivan*

Subject: request for amnedment to include Na-22 in the testing library for license 4-32675-02E*

*Dear Mr Struckmeyer and O'Sullivan,*

*Attached is my request to include Na-22 in my testing library, based on the information Mr. Struckmeyer provided, leading me to the alternative release concentration from 10CFR-20, appendix B. With this info, the request becomes quite simple and straightforward.*

*I very much appreciate your guidance in this.*

*Bill Yelon*
