Verify Procedures for Conversion to GL

(NOTE: This will be used as the
Documents Title in ADAMS)

4/23/2012 (13:50) I left a message on Mr. Carney's voice-mail requesting that he get back in touch with me concerning the RMD XRF device that the licensee possesses. (14:35) Mr. Carney returned my call. He stated that soon after Scott Wilson's call of January 30, 2012, he contacted RMD. The licensee had been in contact with RMD in November 2011 but both RMD and the licensee had failed to complete the conversion. A package was received from RMD on February 2, 2012, and the licensee filled out the paperwork and applied the labels to its device. I thanked Mr. Carney for the information and that he would be receiving a letter documenting the conversation and the NRC's decision to not cite a violation.
