Dear Mr. Rommel,

It has come to my attention that Item 8A on your NRC license is incorrect. I need your assistance to ensure that it is what you want. Please let me know if it should read: **10 millicuries per radionuclide and 1 curie total** or what?

Please send in your response on letterhead with an original signature (you could scan it in and email it) before May 4, 2012.

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits, see our toolkit index page**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 8:00 a.m. to 5:30 p.m. EST, Monday through Friday (except Federal holidays).

Please note that the Region I Division of Nuclear Materials Safety will be moving effective May 9, 2012. Our new address will be:

USNRC – Region I
2100 Renaissance Blvd, Suite 100
King of Prussia, PA 19406-2713

Thank you for your cooperation.
