Robert E. Link, Manager  
Environmental, Health, Safety & Licensing  
AREVA NP Inc.

Bob,

This is to acknowledge that the staff has accepted for review and is currently conducting its technical review of the Submittal of Physical Protection Plan for Low Strategic Significance, Version 7.0, for AREVA NP Inc.'s Richland, Washington Fuel Fabrication Facility; License No. SNM-1227; Docket 70-1257, March 30, 2012. The review has been assigned TAC Number L33208. All reviews should be completed by September 21, 2012. We understand that the AREVA NP Inc. technical contact for this review is Timothy J. Tate, Manager, Safety, Security, and Emergency Preparedness, who can be reached at (509) 375-8550.

The staff did not identify any deficiencies or omissions during the acceptance review that could delay further review. Although the submittal appears to be complete, the technical review nevertheless may identify omissions in the submitted information, or identify technical issues that require additional information. In addition, policy or technical issues may require coordination with other NRC offices. You will be notified promptly if the staff identifies any additional information needs.

A copy of this Notification will be made publicly available electronically for inspection in the NRC Public Document Room or from the NRC's document system, ADAMS, which is accessible from the NRC web site at <http://www.nrc.gov/reading-rm/adams.html>.
