Re: Docket 03037814

52-31329-01

To whom it may concern:

Sorry for the delay related to our response.

On April 17th Mr. Lodhi visited our facilities to verify the status of our Nuclear Equipment. We access our laboratory and he can certify that the equipment was locked and unused (because of the dust and the conditions of the equipment) for the last five years. Then, we proceed under his supervision to lock the access again.

Mr. Lodhi recommend that the gauges may be disposed them all because we are not using them. But we are interested to maintain our license and equipment. In this matter, we are able to make the upgrades necessary to optimize our resources.

Under the circumstances that Mr. Waldemar Rosado passed away, we need to make some changes, and first of all is under whom is going to be the license of the Nuclear Equipment. The name of our new representative is Mr. Félix J. Soto.

Please, advise us all the changes and/or modifications that we have to make to validate our license and equipment. If you need any information, please contact us at (787)834-2300.

Respectfully,

Héctor Rodríguez Valle
