Agenda for 10:00 Industry Consortium Call

+++ / 76

Agenda for Daily Industry Support Team Teleconference Meeting

March 25, 2011 10:00 EDT

b)(6)

Purpose of the Meeting: Alignment of US Government and US Nuclear Industry support for Japan in responding to the Fukushima Nuclear Event.

Expected Outcome: Reinforce roles and responsibilities; identify problems and open issues surrounding our support

Meeting Chair: US NRC

- Roll Call
- Continued discussion of organizational Issues / Roles and Responsibilities
 - US Agency Roles and Leads
 - US Industry Support Structure and Roles
- INPO report on status of material requests
- INPO team report status of on-going work on requests for technical support
- Review Current Action Items
- New Actions

Subject: FYI: FDA/ Governmental Decision Database: Screening Recommendations

Here is a link to an FDA alert I just received re. food imports:
http://www.accessdata.fda.gov/cms_ia/importalert_621.html

FDA is working on some advice for our Customs officers re. packages arriving from Japan. I hope to have that available tomorrow. Thanks.

Subject: Governmental Decision Database: Screening
Recommendations

Dear Colleagues,

There has been quite a lot of interest in people and goods arriving from Japan, by air or by boat, in particular with respect to any radiological screening that is being recommended at ports of entry (air travel or maritime). As such, could you please respond to the following questions, which will be posted, along with the other decision information from you, on the ENAC web site. Note that the following question is SOMEWHAT redundant with Q2 and Q3 which have already been asked. As such, I have extracted these questions and answers from the existing database and included them here to facilitate any updating you may need to make. If there is no change please feel free to ignore this request.

Have you established any recommendations regarding screening of passengers, baggage and transport arriving from Japan in terms of:

- * Screening of passengers and crew

- * Screening of baggage and cargo

- * Screening of cabins (on airplane or on ships)

- * Screening of outer surfaces (of airplanes or of ships)

If you have established such recommendations, what are they, and what is their technical basis?

Sincerely,

Ted Lazo[attachment "Results Compilation Emergency Response Governmental Decision and Recommendation Port of Entry Questions.doc" deleted by Mike Boyd/DC/USEPA/US]

We are working it with our site team... they say they will not know until they can ask NISA (tomorrow).

If the Ops Center provides the answers to 1 – 3 (my team has no way to interact with the NRC-Japan team), my comm. team can get the answer to Item 4 and prepare a consolidated response for OPA review.

Subject: FW: Emailing: boardfile.htm

Jake – for the call this evening with the in-country team, we discussed that the NRC-Japan team may be the best source of information to address questions 1 and 2 below, and may also have insights on question 3. Please see what insights we can get from the team so we can pass them along to the line organization (Nelson is the focal point for comms).

For Question 4, I think the best response would come from DIRS on day shift, regarding the information that is in the TI being developed.

Nelson – the midnight shift ET wanted to get this tasker out of the Operations Center and into the line organization. The Protective Measures Team has a number of other higher priorities that we want them to be able to focus on. Can you respond to this email accepting the tasking so I can get it out of the Ops Center task tracker? Thanks, Tim

Subject: Congressional call Today

I received the following questions from congressional staff which I could not readily answer. Can you please ask the ET, RST and/or the PMT if they have any information that can address these questions?

- 1.) Two workers were reported to have been hospitalized due to radiation exposure. Have there been any more workers hospitalized, and do we know how they were exposed?
- 2.) Three workers were reported to have received radiation burns to their feet by spending too much time walking in contaminated water. Do we have any more information on this?
- 3.) It was reported that the Iodine levels in the Tokyo drinking water went down below allowable limits. Do we know what this is attributable to? Was it due to a shift in wind direction? Did the releases from the plant go down?"
- 4.) What action is the NRC taking regarding licensee plans to walk down their plants to confirm systems, procedures, etc., are in place to deal with natural phenomena? Are the resident inspectors going to accompany the licenses during the walkdowns?

Thanks.

Attached spreadsheet contains the latest forecast wind conditions at the Fukushima Power Plant. The forecast time series is derived from the latest NARAC WRF simulation with 5 km horizontal grid spacing.

This forecast runs from 1200 UTC 25 March through 0600 UTC 27 March.

Synopsis:

1. Winds are from the northwest blowing to the northeast for nearly all the forecast period
2. Periods of light rain or snow indicated from 1200 UTC through 2100 UTC on 25 March, with a slight chance of rain through 0500 UTC on 26 March
3. Northwest winds forecast to increase to 12-15 m/s (25-30 mph) from 0700 UTC through 1200 UTC on 26 March

One more thing, this may have to wait until Monday when I can call CSC, my new bb tells me I have voice mail but when I select "call voice mail" it rolls me over to leave a message for myself. Maybe the IT folks in the Ops center know something. (Also, when people call my new number, the phone reports that my voice mail isn't set up). It might be that there's nothing that can be done, since it's a temporary phone number, but could you pass this along to the IT folks in the Ops center in case they know something?

I'm waiting to board and reading the report. For the note about daily actions, reminders, can you update the request for sitting in on calls with Chuck to reflect that ..."ILs sit in on calls with team lead (will be Dan Dorman) and email notes to Kirk, Brooke, Danielle, and Eric," please?

TRANSITION REPORT FOR MARCH 26, 2011 – 0700

Elizabeth to Steve and Lance

+++/95

UPDATES DURING THIS SHIFT

- **Daily calls with UK/France/Canada.** 0930 daily call with the RST and the 1400 call with the PMT. Call will not occur over the weekend and maybe compressed to only have the 9:30 with both RST and PMT together. The new number to call into for the RST call is (b)(6) and the pin is (b)(6).
- **Chairman's Call with NISA** – The Chairman had a call with NISA on at 5:30 p.m. EST on Thursday, March 24, 2011. The interpreter on duty sat in on this call in the Chairman's office. The call went well and the Chairman offered further assistance to NISA if/when requested. The interpreter (Yokoyama) wrote up his notes, but has advised against sharing them since all of the participants of the call agreed that they would not share the information that was discussed. **No further action.**
- **2130 Daily DOS Interagency call** (Note: call was cancelled on 3/25).
- **Coordination of IAEA and U.S. Efforts.** It appears that DoD (Navy) is taking a logistical leadership role in coordinating efforts for the U.S. government. This information will need to be coordinated with both the IAEA international coordinating team as well as the INPO representative. NRC is interested in knowing what other countries are providing in support to Japan. Email was sent to NRC IAEA Attache' and NRC IAEA desk officer to pursue a path forward. **Action:** Attache' and desk officer will report if they need any further from the LT, ET may inquire about path forward. During the 2300-0700 shift, no one contacted us.
- **Mark Shaffer Question.** Received a request from Mark Shaffer asking that we send him information on three issues from the latest Situation Report. 1) The set of recommendations pertaining to severe accident management strategies that was provided to the NRC team in Japan, 2) The NARAC results, when they become available today, and 3) The exposure data the PMT is providing to NARAC. Received answer from RST for question 1 and forwarded it to Mark. PMT sent Mark answers #2 and #3 with a cc to both LIA02 and LIA03. **No further action.**
- **New Traveler.** New traveler is Elmo Collins. Sent him checklist and requested that he get dosimetry and KI from his RSO. USAID contacting his secretary to get information for his travel. Put in request for Elmo to be added to Liaison Japan. Confirmed that Elmo, Eric and Danielle have been added to Liaison Japan distribution. **No further action.**
- **Assistance to Navy (Pacific Command).** Vince Holahan will be performing a coordinating role with Admiral Willard in Honolulu, HI. Jim Dyer and Mary Matheson are putting his travel through. **Action:** Vince will need to be added to the Japan traveler list and the Liaison Japan distribution list once his travel information is known. His information was not received during the 2300-0700 shift.
- **Consideration of J-village Relocation.** J-village in Fukushima prefecture is 12.5 miles from the Daiichi site. It appears that a lot of the work on the ground is being staged there so C. Casto suggested that the Japan team move their headquarters to J-village; he will be onsite at J-Village 3/27 to check it out. There is a hotel and restaurant on-site (previously this site was used as a training center for the Japan national soccer team). This information was provided to the ET, the translator has bookmarked the Japanese language websites that have the information in case we get further questions on the site. TEPCO, NISA, MoD and Special Defense Forces are stationed at J-village. It is the 1st level of information and is unfiltered and is where workers go for decontamination after working their shifts. Due to the proximity of the site to the damaged plant, during the 3/26 meeting with Chuck Casto the ET suggested that if NRC personnel embed there, that HP support may be needed. **Action:** If Kirk provides more information about J-Village before Chuck's visit there, that information should be provided to the ET.
- **Deputies Committee Decisions and Action Items:** The ET would like to capture decisions taken and action items of this Committee detailed in summary reports from the Deputies Committees meetings (which the Chairman attends). They wish to capture not only those impacting the NRC but other agencies involved as well. The 2300-0700 shift pulled the reports from emails sent to the LT director and saved them in M:\LT\White House. Also in M:\LT there is a summary spreadsheet containing what we have. Since several dates are missing the ET team asked us to call Annette Vietti-Cook (who is on the distribution list and who sent the reports to the ET Director) and see if she has others (an email message was sent to her from LIA03 at 3:36 am on 3/26 containing the spreadsheet indicating which ones are missing). In addition, the Federal Liaison put together a power point designed to show which agency has taken which decisions or actions, and also how our teams would interact. **Action:** Call

Annette Vietti-Cook to follow up on the email message regarding whether she has any missing reports to send us. (Marty Virgilio suggested calling her at around 0900). Her home number is 301-869-5807 and her cell number is 301-613-3639.

- **1900 3/26 EDT call with IA and industry stakeholders:** The call was originally set up to discuss the list of items requested by the government of Japan (and already postponed once). Alan Blamey called and asked to again postpone this call until further notice because DOE can't participate until they coordinate with their headquarters counterparts on several issues. Since DOE has half the items on the list, the call would be unproductive without them in attendance. Alan Blamey will let us know when DOE can participate in the call, and hence when the call should be held. This was communicated to the LT coordinator, who spread the word regarding the postponement. **Action:** Follow up with Alan Blamey to see if there are any updates from DOE. Let the LT coordinator know when a new date and time for the call are requested.
- **RST Recommendations:** In reference to the white paper that the RST is writing containing technical recommendations for the Japanese (which will need interagency and consortium stakeholder concurrence), Chuck Casto relayed that Ambassador Roos wants to attach the final recommendations to a document from DOS and submit it to the Japanese side. The ET said that this was not a good idea. Following the call, Chuck Casto did touch base with the Ambassador, who still wants to proceed. The Chairman may need to contact the Ambassador about this issue. **No action required, just be aware in case the issue comes up.**

FUTURE ACTIONS/OPEN ITEMS

- **Request for meteorological data.** PMT sent a request for us to pass to the Japan Embassy Task Force regarding a need for specific meteorological data. We forwarded the request to the Task Force and received a reply from a Mona Camacho indicating she was passing it to the appropriate people. Naomi Walcott of Japan Embassy replied wanting to know the specific website PMT found the original data. PMT responded with the website in an email. **Action:** If you receive further communication, please ensure PMT is cc on the email and walk a hard copy back to the meteorologists.
- **Japan Relief Team.**
 - **Dosimetry:** LIA03 sent an email to LiaisonJapan (original team) asking for them to email back their dosimetry numbers. The initial team sent over was in such a rush that the Headquarters Radiation Safety Officer, John O'Donnell, never recorded which dosimeter was assigned to which staff member. If dosimeter numbers (on the back) are received directly to the international liaison desks they should be forwarded to John O'Donnell and entered into a word document on LIA03. The RSO has also asked original team members to indicate whether they intend to stay in Japan past the end of the month. If an original team member indicates that they intend to stay past the end of the month, we need to inform the RSO and ensure that an outgoing team member bring that person a replacement dosimeter. Brooke Smith is the last person from the original team leaving Japan on 3/31/2011.
 - Cris Brown has advised that, rather than asking the relief team to carry additional satellite phones to Japan, the current team should turn ownership of the two satellite phones already over there to a new member of the relief team. The travelers have been advised to work with the current team to determine who should take ownership, then provide that name to Cris Brown and LIA02/LIA03. **Action:** When name is provided, ensure that Cris Brown has it.
- **NRC Travelers Return Checklist.** Completed a draft of the checklist and sent it to Michele Evans. Document is located on LIA02 desktop. **No further action required until Michele responds.**
- **Japan Lessons Learned.** ET inquired about OIP plans (existing or future) to rehire Bruce Mallet. They want him to work on Japan lessons learned. Danielle inquired with Jack. Contacted Mary Muessle and she said that Mr. Mallet will not be able to participate in this matter due to his industry involvement. Information communicated to Marty. **No further action.**
- **Request from U.S. Forces Japan.** LT Director received a request for specific reactor information from USFJ in preparation for some bilateral. International liaisons gave NRC team in Japan a heads up that the request had come in. LT Director replied to the request indicating that we have a team in Japan and that, rather than duplicate the requests the USG is making of the Japanese, it would be more efficient

for USFJ to coordinate with us. LIA02 and 03 were provided as email addresses for USFJ to communicate with. **Action:** You may receive a request for information from USFJ that you would then coordinate with our team in Japan.

- **IAEA Coordination.** The ET had tasked us with understanding the role of the IAEA's Incident and Emergency Centre (IEC) and what the extent of their role is if Japan does not make a formal request to them under the Assistance Convention. We suggested that the IEC serve as a clearinghouse, keeping track of all requests for assistance from Japan, all offers to assist from other countries, who has provided what, and whether it satisfies the requests. Mark Shaffer met with Elena Buglova, Acting Director of the IEC, at approximately 0600 EDT. He provided a write-up of that meeting (in LIA02 and 03 email inboxes) to Margie. Subsequently, Ms. Buglova wrote to thank Mark for the meeting and she posted the current spreadsheet of what IAEA is tracking on ENAC (hard copy on LIA02 desk). Update: Ms. Buglova has asked the U.S. to update its entries on the spreadsheet. Jen sent the request to Margie for her views. There is still an open task on the task tracker, but we have tried to manage expectations about the extent to which NRC can "complete a task" on this subject. We have told the LT Director that OIP will keep the ET informed of developments on this issue. **Action:** We need to talk to Margie about how she'd like us to proceed with responding to IAEA's request. Continue to follow this and expect questions from ET and LT Director.
- **Translators.** The translators are working very hard but we are starting to notice duplication of efforts. This is largely due to shift changes here and in the technical teams that results in a lack of knowledge/awareness that previous versions of a document (especially monitoring data) were already translated. The result is that multiple translators are working on the same document or working to translate an entire document when a previous version was already provided to the appropriate team and only the numbers have been updated. Also, translators are often working for a long time on a document which has subsequently been published in English. **Action 1:** Please monitor NISA's English language site and ENAC and make sure that you inform the translators when a document is posted in English, so that if they are working on it they can stop and move on to something else. **Action 2:** Please ensure that the PMT and RST are keeping the translated data we provide them, in particular if a document can serve as a "key" to interpreting future data. **Action 3:** Make sure that the translated documents are marked appropriately (OUO- Sensitive Foreign Government Information).
- **Daily calls with UK/France/Canada.** Calls will take place tomorrow, 3/22, at 0930 with RST and at 1500 with PMT to discuss reactor-related and radiation-related information, respectively, with regulatory representatives from these three countries. Everyone should call into the HOO to be connected. Call will not occur over the weekend and maybe compressed to only have the 9:30 with both RST and PMT together. **The new number to call into for the RST call is (b)(6) and the pin is (b)(6)**
- **Daily NRC Japan Team – RST/PMT Call.** Next call scheduled for 0300. RST and PMT have been notified of the call and international liaison should plan on participating (Brooke and Kirk don't necessarily participate). All parties should call into **301-816-5120** and use pass-code **(b)(6)**
- **21:30 Interagency Call.**

DAILY ACTIONS/REMINDERS

- International updates must now be sent to LIA07 (to be put in the HOO Status Update) before the end of every shift as well as posted on the LT status board (different than the LT Log).
- 11 PM – 7 AM shift is responsible for the summary call with Kirk and Brooke, scheduled daily at 0500 EST unless rescheduled, and subsequent write-up of one-pager for Margie. Margie reminds us that the write-up should not contain technical details, which are already captured in other reports, and should be marked "Official Use Only – Foreign Government Information."
- The 11pm-7am shift is responsible for sending all emails from the previous day to the FOIA email address (FOIA Response.hoc@nrc.gov).
- Kirk and Brooke requested that the international team to sit in on calls with the ET and Chuck to take notes and provide a short summary of what was discussed via email.
- Prior to any international call you set up, please make sure you contact the HOOs to let them know that you are going to have the international call.
- Reminder to Keep Mark Shaffer in-the-loop at shaffermr@state.gov, regardless of time of day, regardless of whether he is in the office or asleep. Especially cc Mark on all communication to IAEA.

- **Sanitary wipes now available. Action:** Please wipe the keyboards, mice and phones before you leave.

2. 防衛省の測定については準備中

福島第一原子力発電所周辺の海域モニタリング結果

平成23年3月26日
文部科学省

1. 海水中の放射能濃度

測定試料採取点	採取日時	核種	放射能濃度(Bq/L)
第1海域 ^{※1} 測点1	3月25日7時55分	¹³¹ I	3.5
		¹³⁷ Cs	不検出
第1海域測点2	3月25日8時42分	¹³¹ I	3.3
		¹³⁷ Cs	0.70
第1海域測点3	3月25日9時14分	¹³¹ I	29.0
		¹³⁷ Cs	8.0
第1海域測点4	3月25日10時00分	¹³¹ I	30.0
		¹³⁷ Cs	5.9
第2海域 ^{※2} 測点1	3月25日10時52分	¹³¹ I	25.0
		¹³⁷ Cs	3.1
第2海域測点2	3月25日11時17分	¹³¹ I	18.0
		¹³⁷ Cs	2.6
第2海域測点3	3月25日11時58分	¹³¹ I	13.0
		¹³⁷ Cs	1.7
第2海域測点4	3月25日12時32分	¹³¹ I	12.0
		¹³⁷ Cs	2.7

※1 第1海域:福島第一原子力発電所沖合

※2 第2海域:福島第二原子力発電所沖合

2. 海上の空間線量率

場所	測定日時	数値(マイクロシーベルト毎時) [※] (記載のない限り屋外)	測定位置			天候
			N	E	H	
第1海域測点1	3月25日7時55分	0.049	37°	30'	11.4"	降雨無し
			140°	45'	51.3"	
第1海域測点2	3月25日8時42分	0.052	37°	30'	58.0"	降雨無し
			140°	45'	21.7"	
第1海域測点3	3月25日9時14分	0.096	37°	31'	24.1"	降雨無し
			140°	44'	52.4"	
第1海域測点4	3月25日10時00分	0.089	37°	32'	01.7"	降雨無し
			140°	44'	42.3"	
第2海域測点1	3月25日10時52分	0.062	37°	32'	46.2"	降雨無し
			140°	44'	12.4"	
第2海域測点2	3月25日11時17分	0.039	37°	33'	13.5"	降雨無し
			140°	44'	12.2"	
第2海域測点3	3月25日11時58分	0.065	37°	33'	35.0"	降雨無し
			140°	45'	37.4"	
第2海域測点4	3月25日12時32分	0.055	37°	33'	40.7"	降雨無し
			140°	44'	37.6"	

※ 検出器型式 Csi(Tl)シンチレーション検出器(PDR-101、アロカ株式会社)

3. 海上の塵中の放射能濃度

測定試料採取点	採取日時	核種	放射能濃度 (Bq/m ³)
第1海域測点1	3月25日7時55分	¹³¹ I	不検出
		¹³⁷ Cs	不検出
第1海域測点2	3月25日8時42分	¹³¹ I	—
		¹³⁷ Cs	—
第1海域測点3	3月25日9時14分	¹³¹ I	—
		¹³⁷ Cs	—
第1海域測点4	3月25日10時00分	¹³¹ I	0.27
		¹³⁷ Cs	不検出
第2海域測点1	3月25日10時52分	¹³¹ I	—
		¹³⁷ Cs	—
第2海域測点2	3月25日11時17分	¹³¹ I	—
		¹³⁷ Cs	—
第2海域測点3	3月25日11時58分	¹³¹ I	—
		¹³⁷ Cs	—
第2海域測点4	3月25日12時32分	¹³¹ I	9.7
		¹³⁷ Cs	不検出

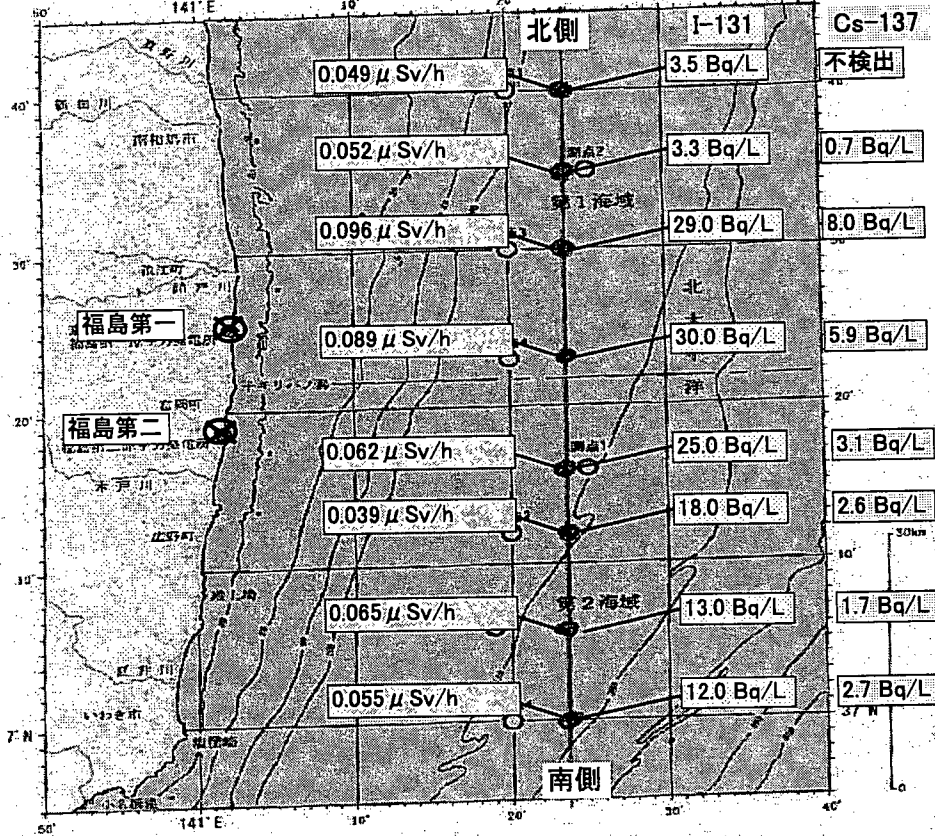

* サンプルは、3地点の抽出調査を行った。

各測定点の位置は次のとおり

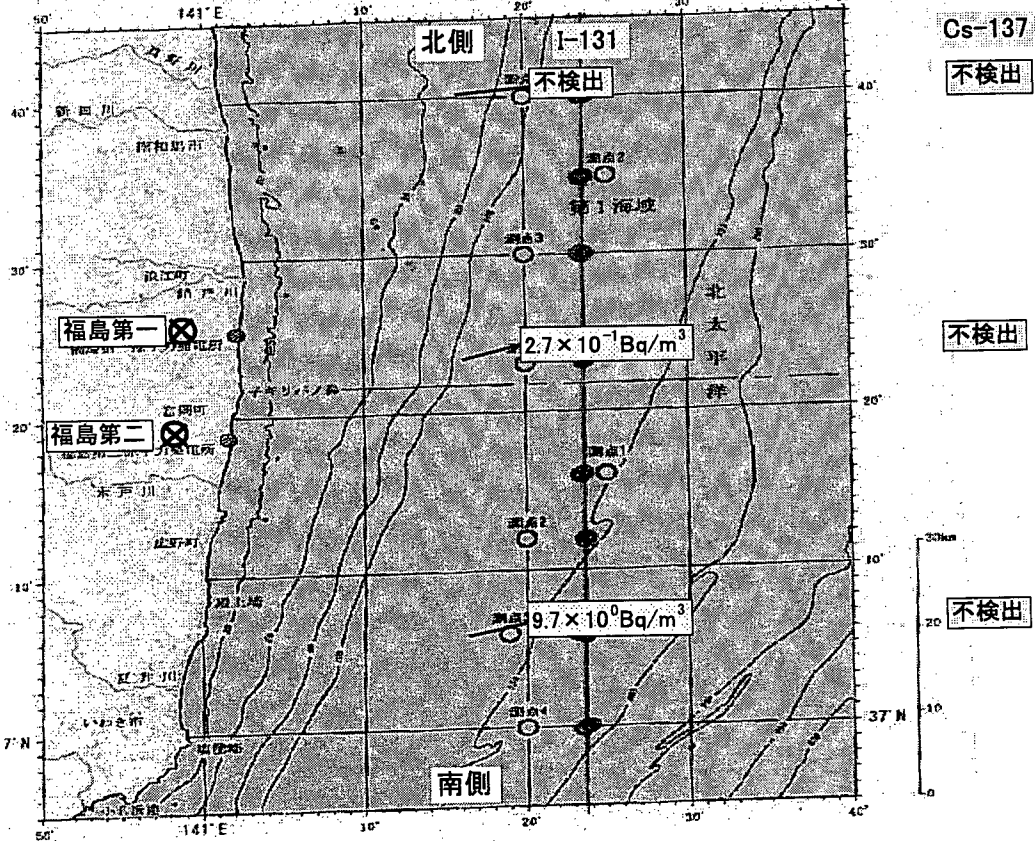

第1海域測点1	37° 38.8' N, 141° 24.0' E	N: 37° 30' 11.4"
		E: 140° 45' 51.3"
第1海域測点2	37° 35.0' N, 141° 23.9' E	N: 37° 30' 58.0"
		E: 140° 45' 21.7"
第1海域測点3	37° 30.2' N, 141° 23.9' E	N: 37° 31' 24.1"
		E: 140° 44' 52.4"
第1海域測点4	37° 24.1' N, 141° 24.4' E	N: 37° 32' 01.7"
		E: 140° 44' 42.3"
第2海域測点1	37° 16.1' N, 141° 23.8' E	N: 37° 32' 46.2"
		E: 140° 44' 12.4"

~~OFFICIAL USE ONLY~~

TRANSITION REPORT FOR MARCH 27, 2011 – 2300

Nancy and Jenny to Brian

UPDATES DURING SHIFT

- **2130 Daily DOS Interagency call.**
- **Japan Embassy Request.** Email from Mr. Inutsuka (Science Counselor) at Embassy of Japan to Bill and Margie requesting information for the U.S. 50-mile radius for protective measures, including a basis, around the Fukushima plant. Forwarded this email to the PMT. **Action:** Follow-up with Margie and the PMT 3/28 to determine next steps forward (Josh B. was also interested in how this is resolved).
- **Chairman's Agenda.** ET requested the Chairman's agenda for the meeting with Ambassador Roos. Brooke sent the requested document and it was distributed at HQ as appropriate. **No further action.**
- **Return Checklist.** Michelle Evans had one suggested amendment. The change was made and the document is ready for distribution to the travelers coming back. **Action:** Email document to travelers coming back to U.S (on LIA02 Desktop).

FUTURE ACTIONS/OPEN ITEMS

- **Coordination of IAEA and U.S. Efforts.** It appears that DoD (Navy) is taking a logistical leadership role in coordinating efforts for the U.S. government. This information will need to be coordinated with both the IAEA international coordinating team as well as the INPO representative. NRC is interested in knowing what other countries are providing in support to Japan. Email was sent to NRC IAEA Attache' and NRC IAEA desk officer to pursue a path forward. **Action:** Attache' and desk officer will report if they need any further from the LT; ET may inquire about path forward.
- **Emche Blackberry Voicemail Problems.** Forwarded directions from TSC to Danielle on how to access her voicemail. She tried them but it still did not work properly. She will call the CSC Monday morning. Her BB number is confirmed. Emailed Eric to confirm his BB number. **Action:** A heads up regarding the continuing voice mail problems was sent to CSC. Danielle will call CSC Monday. The Monday teams should stay tuned in case Danielle needs further assistance.
- **Commissioner Apostolakis Request.** Commissioner wants login information for IAEA's website system termed PRIS. Email sent to Jen S. and Mark S. to request this information so he will not have to register. **Action:** Following up with Mark S., he noted that it would best to wait until Monday when the PRIS staff would be in the office. They could assist with the request. If it is an emergency, follow up with the IEC (the latter scenario does not appear to be the case).
- **Request for meteorological data.** PMT sent a request for us to pass to the Japan Embassy Task Force regarding a need for specific meteorological data. **Action:** If you receive further communication, please ensure PMT is cc on the email and walk a hard copy back to the meteorologists.
- **Japan Relief Team.**

- **Dosimetry:** LIA03 sent an email to LiasonJapan (original team) asking for them to email back their dosimetry numbers. The initial team sent over was in such a rush that the Headquarters Radiation Safety Officer, John O'Donnell, never recorded which dosimeter was assigned to which staff member. If dosimeter numbers (on the back) are received directly to the international liaison desks they should be forwarded to John O'Donnell and entered into a word document on LIA03.
- Cris Brown has advised that, rather than asking the relief team to carry additional satellite phones to Japan, the current team should turn ownership of the two satellite phones already over there to a new member of the relief team. The travelers have been advised to work with the current team to determine who should take ownership, then provide that name to Cris Brown and LIA02/LIA03. **Action:** When name is provided, ensure that Cris Brown has it.
- **Request from U.S. Forces Japan.** LT Director received a request for specific reactor information from USFJ in preparation for some bilateral. International liaisons gave NRC team in Japan a heads up that the request had come in. LT Director replied to the request indicating that we have a team in Japan and that, rather than duplicate the requests the USG is making of the Japanese, it would be more efficient for USFJ to coordinate with us. LIA02 and 03 were provided as email addresses for USFJ to communicate with. **Action:** You may receive a request for information from USFJ that you would then coordinate with our team in Japan.
- **IAEA Coordination.** The ET had tasked us with understanding the role of the IAEA's Incident and Emergency Centre (IEC) and what the extent of their role is if Japan does not make a formal request to them under the Assistance Convention. We suggested that the IEC serve as a clearinghouse, keeping track of all requests for assistance from Japan, all offers to assist from other countries, who has provided what, and whether it satisfies the requests. We have told the LT Director that OIP will keep the ET informed of developments on this issue. **Action:** We need to talk to Margie about how she'd like us to proceed with responding to IAEA's request. Continue to follow this and expect questions from ET and LT Director.
- **Translators.** The translators are working very hard but we are starting to notice duplication of efforts. This is largely due to shift changes here and in the technical teams that results in a lack of knowledge/awareness that previous versions of a document (especially monitoring data) were already translated. The result is that multiple translators are working on the same document or working to translate an entire document when a previous version was already provided to the appropriate team and only the numbers have been updated. Also, translators are often working for a long time on a document which has subsequently been published in English. **Action 1:** Please monitor NISA's English language site and ENAC and make sure that you inform the translators when a document is posted in English, so that if they are working on it they can stop and move on to something else. **Action 2:** Please ensure that the PMT and RST are keeping the translated data we provide them, in particular if a document can serve as a "key" to interpreting future data. **Action 3:** Make sure that the translated documents are marked appropriately (OUO- Sensitive Foreign Government Information).
- **Daily calls with UK/France/Canada.** Calls will take place tomorrow, 3/22, at 0930 with RST and at 1500 with PMT to discuss reactor-related and radiation-related information, respectively, with regulatory representatives from these three countries. Everyone should call into the HOO to be connected. Call will not occur over the weekend and maybe compressed to only have the 9:30 with both RST and PMT together. **The new number to call into for the RST call is (b)(6) and the pin is (b)(6)**
- **Daily NRC Japan Team – RST/PMT Call.** Next call scheduled for 0300. RST and PMT have been notified of the call and international liaison should plan on participating (Brooke and Kirk don't necessarily participate). All parties should call into **301-816-5120** and use pass-code **(b)(6)**
- **21:30 Interagency Call.**
- **Deputies Committee Decisions and Action Items:** **Action:** Annette will be sending us the meeting summaries when she gets them. They need to be placed in the White House file and then search for NRC actions and update the running list. Forward to the LT Director and Coordinator.
- **RST Recommendations:** In reference to the white paper that the RST is writing containing technical recommendations for the Japanese (which will need interagency and consortium stakeholder concurrence), Chuck Casto relayed that Ambassador Roos wants to attach the final recommendations to a document from DOS and submit it to the Japanese side. The ET said that this was not a good idea. Following the call, Chuck Casto did touch base with the Ambassador, who still wants to

proceed. The Chairman will probably talk to the Ambassador about this issue in due course. **No action required, just be aware in case the issue comes up.**

DAILY ACTIONS/REMINDERS

- International updates must now be sent to LIA07 (to be put in the HOO Status Update) before the end of every shift as well as posted on the LT status board (different than the LT Log).
- 11 PM – 7 AM shift is responsible for the summary call with Kirk and Brooke, scheduled daily at 0500 EST unless rescheduled, and subsequent write-up of one-pager for Margie. Margie reminds us that the write-up should not contain technical details, which are already captured in other reports, and should be marked "Official Use Only – Foreign Government Information."
- The 11pm-7am shift is responsible for sending all emails from the previous day to the FOIA email address (FOIA Response.hoc@nrc.gov).
- Kirk, Brooke, Daniellé and Eric requested that the international team to sit in on calls with the ET and team leader (Chuck or Dan) to take notes and provide a short summary of what was discussed via email.
- Prior to any international call you set up, please make sure you contact the HOOs to let them know that you are going to have an international call.
- Reminder to Keep Mark Shaffer in-the-loop at shaffermr@state.gov, regardless of time of day, regardless of whether he is in the office or asleep. Especially cc Mark on all communication to IAEA.
- **Sanitary wipes now available. Action:** Please wipe the keyboards, mice and phones before you leave.

Dear Mr. Cherry,

I send some unofficial sheets including lat/long data.
Please see attached the document.

Sincerely yours,
Naoaki AKASAKA

Readings at Monitoring Post out of 20 Km Zone of Fukushima Dai-ichi NPP

As of 10:00 March 27, 2011
Ministry of Education, Culture, Sports, Science
and Technology (MEXT)

I. Monitoring Outputs by
MEXT

*Boldface and underlined readings are new.

* 1 measured by Geiger-Müller counter

* 2 measured by ionization chamber type survey
meter

* 3 measured by NaI scintillator detector

TRANSITION REPORT FOR MARCH 28, 0700 – 1500

Jill and Karen to Nancy and Jenny

UPDATES DURING SHIFT

- **Request from RST and PMT** to keep them updated on who is currently in Japan on NRC team. 3/28, 1300: Updated list provided, minus PII, to RST and PMT.
- **Sent** a request to returned travelers/travelers about to return to confirm their status, and to provide them with updated returned traveler checklist at 1300. Received responses from R.DeVercelly. **Action:** Update list as travelers respond.
- **Japan Embassy Request.** Email from Mr. Inutsuka (Science Counselor) at Embassy of Japan to Bill and Margie requesting information for the U.S. 50-mile radius for protective measures, including a basis, around the Fukushima plant. Josh B. inquired to Bill and Margie as to status at 2240 Sunday. Email provided to ET/PMT for information/action. **Action:** Followed up with Margie via email 0857 with data provided by PMT. Forwarded PMT response to Mr. Inutsuka at 1106 after ensuring OIP management was aware of the completed project.
- **Return Checklist.** Michele Evans had one suggested amendment. The change was made and the document was sent to Michele Evans for concurrence and for distribution to the travelers coming back. Email document to travelers coming back to U.S as requested by Michele Evans (on LIA02 Desktop). Update 3/28 1300: After confirming changes with Michele Evans, sent checklist to travelers already returned and those returning this week.
- **NRC Health Unit request:** Dr. Cadoux (and Jeanne Dempsey) has contacted LIA02/LIA03 via Jen Schwartzman to discuss the situation with KI. The NRC team members were given KI before they left. At this time the guidance is to not take the KI while on duty in Tokyo. However, due to the still-fluid nature of the environmental hazards posed by radioactive isotopes, there still exists a possibility that KI could be required at some point. Jen has responded to Jeanne that should it become necessary to have the NRC team take the KI, the LIA02/LIA03 international liaisons would be responsible for receiving the advice from ADM/Dr. Cadoux and to get the information to the team immediately.

+++ 103

FUTURE ACTIONS/OPEN ITEMS

- **Coordination of IAEA and U.S. Efforts.** It appears that DoD (Navy) is taking a logistical leadership role in coordinating efforts for the U.S. government. This information will need to be coordinated with both the IAEA international coordinating team as well as the INPO representative. NRC is interested in knowing what other countries are providing in support to Japan. Email was sent to NRC IAEA Attache' and NRC IAEA desk officer to pursue a path forward. **Action:** Attache' and desk officer will report if they need anything further from the LT; ET may inquire about path forward.
- **Emche Blackberry Voicemail Problems.** Forwarded directions from TSC to Danielle on how to access her voicemail. She tried them but it still did not work properly. She will call the CSC Monday morning. Her BB number is confirmed. Emailed Eric to confirm his BB number. **Action:** A heads up regarding the continuing voice mail problems was sent to CSC. Danielle will call CSC Monday. The Monday teams should stay tuned in case Danielle needs further assistance. Update 3/28 1400: CSC checked in with LIA02/03, but we do not have confirmation that the problem has been solved.
- **Commissioner Apostolakis Request.** Commissioner wants login information for IAEA's website system termed PRIS. Email sent to Jen S. and Mark S. to request this information so he will not have to register. **Action:** Mark S. provided documentation that will need to be filled out and submitted to IAEA for access. These documents were been provided to Commissioner Apostolakis' office during 3/28 0700 shift. Action can be considered closed.
- **Request for meteorological data.** PMT notified LIA02/03 of their need for meteorological data. **Action:** If you receive meteorological communications which do not already have PMT on distribution, please ensure PMT is cc'ed on the email (send to PMT02 and PMT12) and walk a hard copy back to the meteorologists.
- **Japan Relief Team.**
 - **Dosimetry:** LIA03 sent an email to LiasonJapan (original team) asking for them to email back their dosimetry numbers. The initial team sent over was in such a rush that the Headquarters Radiation Safety Officer, John O'Donnell, never recorded which dosimeter was assigned to which staff member. If dosimeter numbers (on the back) are received directly to the international liaison desks they should be forwarded to John O'Donnell and entered into a word document on LIA03.
 - Cris Brown has advised that, rather than asking the relief team to carry additional satellite phones to Japan, the current team should turn ownership of the two satellite phones already over there to a new member of the relief team. The travelers have been advised to work with the current team to determine who should take ownership, then provide that name to Cris Brown and LIA02/LIA03. **Action:** When name is provided, ensure that Cris Brown has it.
- **Request from U.S. Forces Japan.** LT Director received a request for specific reactor information from USFJ in preparation for a bilateral. International liaisons gave NRC team in Japan a heads up that the request had come in. LT Director replied to the request indicating that we have a team in Japan and that, rather than duplicate the requests the USG is making of the Japanese, it would be more efficient for USFJ to coordinate with us. LIA02 and 03 were provided as email addresses for USFJ to communicate with.
- **IAEA Coordination.** The ET had tasked us with understanding the role of the IAEA's Incident and Emergency Centre (IEC) and what the extent of their role is if Japan does not make a formal request to them under the Assistance Convention. We suggested that the IEC serve as a clearinghouse, keeping track of all requests for assistance from Japan, all offers to assist from other countries, who has provided what, and whether it satisfies the requests. We have told the LT Director that OIP will keep the ET informed of developments on this issue. **Action:** We need to talk to Margie about how she'd like us to proceed with responding to IAEA's request. Continue to follow this and expect questions from ET and LT Director. **Update 3/28: M. Shaffer has confirmed that Japan has not requested assistance under the Convention.**
- **Translators.** 24/7 translation coverage has been suspended due to both projected decreasing demand and funding issues. **Action:** PMT has asked that we identify any Japanese speakers at NRC (e.g. foreign assignees) who can assist if an urgent translation is needed. PMT is comfortable understanding the monitoring data as the fields in the tables are repetitive. Email request sent to Steve D./Charlotte/Mary C.

- **Daily calls with UK/France/Canada.** Calls will take place at 0930 with RST and PMT to discuss reactor-related and radiation-related information, respectively, with regulatory representatives from these three countries. Everyone should call into the HOO to be connected. Call will not occur over the weekend. **The new number to call into for the RST call is (b)(6) and the pin is (b)(6)**
- **Daily NRC Japan Team – RST/PMT Call.** Next call scheduled for 0300. RST and PMT have been notified of the call and international liaison should plan on participating (Brooke and Kirk don't necessarily participate). All parties should call into **301-816-5120** and use pass-code (b)(6)
- **21:30 Interagency Call.**
- **Deputies Committee Decisions and Action Items:** **Action:** Annette will be sending us the meeting summaries when she gets them. They need to be placed in the White House file and then search for NRC actions and update the running list. Forward to the LT Director and Coordinator.
- **RST Recommendations:** In reference to the white paper that the RST is writing containing technical recommendations for the Japanese (which will need interagency and consortium stakeholder concurrence), Chuck Casto relayed that Ambassador Roos wants to attach the final recommendations to a document from DOS and submit it to the Japanese side. The ET said that this was not a good idea. Following the call, Chuck Casto did touch base with the Ambassador, who still wants to proceed. The Chairman will probably talk to the Ambassador about this issue in due course. **No action required, just be aware in case the issue comes up.**

DAILY ACTIONS/REMINDERS

- International updates must be sent to LIA07 (to be put in the HOO Status Update) before the end of every shift as well as posted on the LT status board (different than the LT Log).
- 11 PM – 7 AM shift is responsible for the summary call with Kirk and Brooke, scheduled daily at 0500 EST unless rescheduled, and subsequent write-up of one-pager for Margie. Margie reminds us that the write-up should not contain technical details, which are already captured in other reports, and should be marked "Official Use Only – Foreign Government Information."
- The 11pm-7am shift is responsible for sending all emails from the previous day to the FOIA email address. Open new email, copy previous day's emails as an attachment and send to [FOIA Response.hoc@nrc.gov](mailto:FOIA.Response.hoc@nrc.gov).
- Kirk, Brooke, Danielle and Eric requested that the international team to sit in on calls with the ET and team leader (Chuck or Dan) to take notes and provide a short summary of what was discussed via email.
- Prior to any international call you set up, please make sure you contact the HOOs to let them know that you are going to have an international call.
- Reminder to Keep Mark Shaffer in-the-loop at shaffermr@state.gov, regardless of time of day, regardless of whether he is in the office or asleep. Especially cc Mark on all communication to IAEA.
- **Sanitary wipes now available.** **Action:** Please wipe the keyboards, mice and phones before you leave.

Follow Up Flag: Follow up
Flag Status: Flagged

Here are notes turned over to me regarding 0300 phone call:

1. NRC-Japan noted that TEPCO continues to work on switching core cooling injection system from pumper trucks to electric pumps. Electric pumps will have higher injection capacity, but not clear what the injection path system resistance is or what the achievable flow rate will be. Expect that TEPCO will continue to limit injection flows to MRDIR rate to reduce containment pressure buildup.

2. NRC-Japan noted that TEPCO work to restore containment inerting system continues. This work is difficult based on site conditions. Estimate that TEPCO may have temporary system and flowpath in place by Wednesday.

3. NRC-Japan plans to have continuing dialogue with TEPCO on site conditions. Questions NRC-Japan will ask include:
 - a. what MRDIR rate is TEPCO using, and confirmation that the MRDIR rates are being met for each unit.

 - b. there is a continued concern regarding the method which TEPCO is using to ascertain SFP levels. NRC believes TEPCO is using a "skimmer surge tank" level, but this is indirect and may not represent true SFP levels. INPO is working on a temporary means to restore some form of SFP level. The team noted that TEPCO tried to use cameras on one of the boom devices, but that there was too much steam for the camera to be useful. Steam indicates there is some water and cooling being provided: but does not provide assurance on whether the cooling is adequate.

 - c. whether TEPCO can provide any additional information on containment integrity or indications of damage.

 - d. whether isometric or other drawings are available that show as-built conditions for the plants.

4. The Consortium had a prolonged discussion on Unit#2 and #3 containment bypass indications:
 - a. NRC-RST is working on a paper regarding potential sources of the leakage into the turbine buildings. RST is not ready to share this paper, but will finish the RST work and staff the paper with the NRC consortium.

 - b. NRC-Japan noted that the entire reactor building is not accessible right now for all (assume 1-4) units, and it is not clear whether that will change any time soon. Continued dialogue expected with TEPCO on accessibility limitations to further understand site conditions.

+++ / 104

5. RST (Eva Brown) has been working on another NRC-RST paper discussing accessibility limitations and what impact accessibility will have on options for future response: this paper is not ready for distribution outside of NRC. NOTE: TEPCO has specifically asked through NRC-Japan for US assistance in evaluating whether the site conditions (high radiation levels and restricted accessibility) would cause the US to change any recommendations for site response (e.g.: how to fill, whether or not to fill containment, other response options). NRC-Japan also noted that the Japanese have expressed respect and appreciation for the US recommendations and assistance in dealing with many complex issues with limited data. Also, the Japanese have commented that the RST white paper is very valuable, and there is a desire to maintain the white paper recommendations as a living document as conditions change.

Below are the results of SONGS air samples for 3/28/11:

The measured concentration of I-131 ranged from 2E-13 to 3E-13 microcuries/cc.

The measured concentration of Cs-137 was below minimum detectable limits.

Subject: Seismic Q&As March 28th 10pm update
Date: Monday, March 28, 2011 10:33:27 PM
Attachments: Seismic Questions for Incident Response 3-28-11 9am.pdf

All,

It seems that some people actually missed getting the Q&As since I'm starting to get emails asking if I can do an update. Sorry it's been a while, for some reason my workload seems to have exploded...LOL. (Actually I really have no excuse as Shelby has been a compiling machine!). We've added several new sections including **ACRONYMS**, located near the back. (Thanks to Stephanie Devlin for pulling the acronyms together)

Now that the agency is moving out of the heart of the emergency response phase, and looking towards short, medium and long term actions and goals, our little seismic group has been discussing what to do with this document; and specifically how to make it useful beyond this event. We've discussed the fact that ever since the Kashiwazaki earthquake, we have recognized the need to develop a "generic" seismic Q&A document so that the agency can hit the ground running in cases such as this. It is obvious to us that we now have the guts of the document we've envisaged for years in one 140 page compilation; and it's time to make it happen!

So the next time you see this document (which won't be for a while), it will be radically transformed. We'll be putting all the "static" information in the front, and will be pulling the japan earthquake-specific information into a separate section. It will be more user friendly and will be easier to find any new information. It's unclear to us how long these updates will be useful, but we suspect, not much longer. So, now's the time to start wrapping it up and putting a bow on it...

We hope the new document will be worth the wait...

Dr. Annie Kammerer, P.E.

Subject: Seismic Q&As March 22th 10pm update

777/106

All,

Attached please find an updated set of Q&As. I also included some new Q&As for SONGS and Diablo Canyon, just in case anyone is interested.

This version has an expanded set of definitions and new sections on station blackout, spent fuel, flooding and some other topics. It also has fewer duplicate questions.

Let me also pass on a tidbit of info. According to TEPCO (via an NEI press release), the tsunami at Fukushima was 14 meters and the design tsunami level was 5.7 meters. The reactors and backup power sources were at 10 meters and at 13 meters. Ouch.

Cheers,

Annie

Subject: Seismic Q&As March 20th 8pm update

All,

Here's today's version. It includes updates on related topics for tomorrow's briefing. Also, some of the sections have been streamlined and some (though not all) of the answers have been updated.

The biggest news from the seismic team's perspective is that starting tomorrow a very bright young risk analyst (Michelle Bensi) who recently joined us from (b)(6) will be helping with the compilation of this document. That will allow our team to spend more time cleaning and streamlining it; which inevitably will make it more user friendly...and shorter! Starting with tomorrow's version her name will start to show up on the front.

Best of luck to everyone with the briefing tomorrow!

Annie

Subject: Seismic Q&As March 19th 8am update

All,

Here is today's updated version. Lot of new fact sheets have been prepared for various briefings and for Monday's public meeting!

However, the big news of the day is that we just sent off a 6 page, 22 question, much better edited version for a public Q&A set. It's all in OPA's capable hands now. I think it's pretty good...but then I'm biased.

Cheers,

Annie

Subject: RE: Seismic Q&As March 18th 5am update

All,

Please see the updated version of the Seismic Q&As.

Among today's highlights:

*We added a Terms and Definitions section at the end of the document. (We know that an acronyms list would be helpful too, but it will have to wait a little) *The "additional information" section has been split into tables, plots, and fact sheets *A high-level draft fact sheet on NRC's seismic regulations has been added *We added a section to track outstanding questions that have come in from congress. This will support those who get the tickets in the short terms (most likely NRR). The questions will be moved to the appropriate sections long term (as long as they are not duplicates.)

I'm sure we all agree this has been a crazy week!. We're hoping that the weekend workload is lighter (if only because we won't get as many email from in house) and we can clean up this document and fill in some of the missing answers in preparation for the news story changing. We're trying hard to get out in front of the next wave.

Cheers,

Annie

Subject: Seismic Q&As March 17th 2am update All,

As promised, a sharepoint site has been set up where our friends in NRR will be posting the latest version of the Seismic Q&A document on an ongoing basis. If someone would prefer to use the sharepoint site, instead of being on this distribution list, please let me know...

<http://portal.nrc.gov/edo/nrr/NRR%20TA/FAQ%20Related%20to%20Events%20Occuring%20in%20Japan/Forms/AllItems.aspx>

This latest update has a number of new questions (not many with answers today, but we are working hard). A high priority question we are working on is "how many plants are near a mapped active fault". We're focusing on anything within 50 miles. We're also pulling relevant questions from the congressional inquiries we just received; and will also give these high priority to support any needs by NRR.

Many new figures and some draft fact sheets have added to the "additional information" section. These include the NRO half of a tsunami fact sheet...a description of the tsunami research is still to come from RES.

Some good news: Yesterday's version seems to have been widely forwarded around the agency. So, we are also starting to get some excellent questions from staff looking forward. This is allowing us to feel that we are finally getting out in front of things to a small degree. Also, our team has grown and we now have someone acting as source of seismic expertise for the 11pm to 7 am shift. This means that we now have seismic experts available to the RST and OPA at the Op Center 24 hours, with 2 people during the day. That extra support is allowing us to get this out at least an hour earlier today ☺

We are continuing to compile the questions that come in and update the seismic Q&A document. If you have suggested changes, or want to provide missing answers, please forward them to me for compilation.

This is a living document and will be updated daily in the foreseeable future.

Happy St. Paddy's Day. May the world (especially our friends in Japan) have the luck of the Irish today.

Cheers,

Annie

Subject: latest version of Q&As

All,

This is the first draft of the seismic-specific Q&As. It is pretty rough and there are many answers still missing, but people have contributed a lot and we thought it may be useful for many people trying to answer questions coming in.

We are continuing to compile the questions that come in and update the seismic Q&A document. If you have suggested changes, or want to provide missing answers, please forward them to me for compilation.

This is a living document and will be updated daily in the foreseeable future.

Annie

Subject: RE: NRC logo in plume map
Date: Monday, March 28, 2011 2:06:20 PM

Charles: David works for OPA.

We succeeded in having this bit of bogosity (new word) removed from several websites in the early days of the crisis when we spotted it, got word out via social media, blogged about it and otherwise knocked it down. We're always happy to keep you guys in the loop.

In terms of reaching out to other elements of the government (outside of the public affairs structure), it's all yours. Glad the Ops Center folks were able to spot yet another use of this thing and notify you.

Eliot

David, thank you for the notification. In the future, as you just did, please send all erroneous or malicious external web site notifications etc to CS_IRT@nrc.gov or call 301-415-6666.

CISRT will take the lead by contacting US-CERT, OPA, OIG and others who will make contact and take action with the web site owner and associated Internet Service Provider or law enforcement agencies. Only those with official duties and capacity should be contacting the external entities on behalf of the US Government. As a rule, most agency actions are defensive in nature and we leave offensive actions to the proper authorities. Thank you, Charlie

Subject: Fukushima Status Update - April 29, 2011 (attached and pasted below).

During the week of April 25-29, IAEA did not conduct a technical briefing for Member States. The next briefing is scheduled for May 5. The information provided below (taken from various official Japanese sources) is based on information received up to 17:00 UTC on April 28 2011.

Changes to Fukushima Daiichi Plant Status

TEPCO provided an updated assessment of the estimated core damage ratios that they had previously provided. The new assessment noted below was issued on April 27 and shows the updated ratios, with the previously assessed values given in brackets:

Unit 1 – 55% (70%); Unit 2 – 35% (30%); and Unit 3 – 30% (25%).

Unit 1

Injection of fresh water into the Reactor Pressure Vessel (RPV) was on-going, at a rate of 5.9 m³/h as of 20:00 UTC on April 26. A gradual increase of water injection to reactor pressure vessel from 6m³/h to 14m³/h started on 27 April at 01:02 UTC. As of 20:00 UTC on April 27, the injection flow rate was 10.0 m³/h. The temperature of the RPV was 107.3 °C at the feed water nozzle and 98.5 °C at the lower head at 20:00 UTC on April 27.

Nitrogen gas continues to be injected into the Unit 1 Containment Vessel.

Data reported shows that Reactor Pressure Instrument B shows an increasing trend. NISA has indicated that some reactor vessel instrumentation may not be working properly. Thermography measurement of the Unit 1 Spent Fuel Pool showed the pool temperature to be 20°C at 22:30 UTC April 23. Confirmation of the situation, etc. at the reactor building of Unit 1 using an unmanned robot was carried out from 2:35 UTC to 04:24 UTC on April 26.

Unit 2

Fresh water injection (total of 135 tones) to the spent fuel pool via the spent fuel pool cooling line was carried out from April 19-25. Injection of fresh water into the RPV was on-going, at a rate of 7.0 m³/h, as reported at 20:00 UTC on April 27. The temperature of the RPV at the feed water nozzle was 119.9 °C at 20:00 UTC on April 27.

Unit 3

Injection of fresh water into the RPV was on-going, at a rate of 6.8 m³/h as of 20:00 UTC on April 27. The temperature at the RPV was 86.0 °C at the feed water nozzle and 109.6 °C at the lower head as of 20:00 UTC on April 27.

Thermography measurement of the Unit 3 Spent Fuel Pool showed the pool temperature to be 47 °C on April 23. 47.5 tones of fresh water were injected in the Spent Fuel Pool using the Fuel Pool Coolant Clean-up System on April 26.

There was a significant correction of data reported regarding the dose rate levels (from Containment Atmospheric Monitoring System - Suppression Chamber) due to an error in data transferring: corrected values are 100 times lower than previously reported for values measured on April 17-19, 2011.

Unit 4

On April 23, 140 tons of fresh water was sprayed over the spent fuel pool using a concrete pumping vehicle. Fresh water spray of around 210 tons over the pool was performed on April 25. 130 tons of fresh water was sprayed over the pool on April 26. Subsequent measurements showed the spent fuel pool temperature to be 86°C before spraying and 81°C after spraying. On April 27, an additional 85 tones of fresh water was sprayed over the spent fuel pool.

Units 5 and 6

Both units remain in cold shutdown with plant systems operating on off-site AC power. The reactor water temperatures were both below 50°C at about atmospheric pressure as of 21:00 UTC on April 26.

Common Spent Fuel Storage Facility

The Common Spent Fuel Pool temperature was 32°C as of 23:00 UTC on 25 April.

Management of On-Site Contamination

Contaminated soil

The test implementation of spraying anti-scattering agent to prevent the spread of radioactive materials on the ground surface has been carried out in the areas around the Common Spent Fuel Pool and Radioactive Waste Treatment Facilities. On April 25, additional spraying was done on the areas around Unit 5 Reactor Building, the old administrative building and the gym (total 3,800 m²).

Full-scale implementation of spraying anti-scattering agent was performed on April 26, using an unmanned crawler dump, over an area of about 5,000 m² on the ocean-side of Unit 3.

Contaminated water

According to a report submitted by TEPCO regarding the discharge of water to the sea, a little less than 70,000 tons of contaminated water with high level radioactivity is stagnant on the basement floor of the turbine buildings of units 1, 2, 3.

Additional effort to minimize the leakage of radioactive water into the sea included the installation of sandbags filled with Zeolite. The Zeolite material will be periodically sampled and analyzed to infer its effectiveness in retaining the relevant radionuclides.

As a countermeasure against this water outflow and to prevent and minimize the spread of the radioactive fluid, TEPCO installed iron plates at the screen room of Unit 2, silt fences in front of the screen rooms of Unit 1-4, 62 large sandbags around the south pier of the power station, and 10 sandbags including radiation absorber (zeolite) in front of the screen rooms of Unit 1-4.

TEPCO plans further countermeasures such as the installation of steel sheet piles to the south pier of the power station and the installation of equipment for radiation absorption.

The stagnant water in the basement of the turbine building of Unit 6 (around 100 m³) was transferred to the Condenser on April 19.

Off-Site Monitoring

Monitoring of Workers and the Public

On April 24, a NISA press release stated that, in total, as of April 22, 169,874 people have been screened. No additional individuals were found to display levels above 100,000 cpm.

On April 27, TEPCO reported that a female employee of the Fukushima Daiichi nuclear power plant had been exposed to radiation to a level of 17.55 mSv, exceeding the legal limit of 5 mSv in a three-month period. Japanese regulation on the prevention of ionizing radiation injury stipulates that the effective radiation dose of a female worker may not exceed 5 mSv in 3 months. TEPCO also reported that a medical diagnosis confirmed that there is no impact on her health.

Dose Rate Monitoring in Prefectures

Measurements of gamma dose rates are being taken continuously at fixed locations in all the prefectures. Since March 13, the dose rates generally show a decreasing trend. Based on values measured on April 27, in the 47 prefectures, the highest dose rate (1700 nSv/h) has been measured at Fukushima. Ibaraki prefecture showed a maximum dose rate of 114 nSv/h. The other 45 prefectures presented dose rates below 100 nSv/h, falling within the local background range.

Food Monitoring

Food monitoring data were reported by the Japanese Ministry of Health, Labor and Welfare on April 27 for a total of 129 samples taken on April 21-27 from 10 prefectures (Chiba, Fukushima, Gunma, Ibaraki, Kanagawa, Miyagi, Niigata, Saitama, Tochigi and Yamagata).

Analytical results for 125 of the 129 samples for various vegetables, mushrooms, fruit (strawberry), pork, seafood, fresh milk and raw unprocessed milk indicated that I-131, Cs-134 and Cs-137 were either not detected or were below the regulation values set by the Japanese authorities. In Fukushima prefecture, two samples of spinach from April 24-25, and two samples of seafood (sand lance) from April 26 were above the regulation values set by the Japanese authorities for Cs-134/Cs-137.

Food Restrictions

On April 27, restrictions were lifted on the distribution of spinach in Tochigi prefecture. In Fukushima prefecture, restrictions were lifted on the distribution and consumption of head type leafy vegetables from 17 locations in the Aizu and Minamiaizu districts, and flower head brassicas from nine locations.

MEXT Seawater Results

Samples were taken at 10 stations every 4 days after April 2. Activity concentrations at MEXT sampling points, located 30 km offshore, are significantly lower than those at TEPCO sampling points located 15 km offshore. The activity concentrations of I-131 and Cs-137 in samples taken from nearly all sampling points were below detection limits. A few samples showed concentrations of Cs-137 between 10.5 and 40 Bq/L. One sample had an I-131 activity concentration above the detection limit, at 21.5 Bq/L.

Protective Measures

During a press conference, which was held on April 21, Chief Cabinet Secretary Edano announced the establishment of a no-entry zone around Fukushima Daiichi NPP, as well as basic policies concerning temporary re-entry. By midnight on April 22, the area within 20-km from Fukushima Daiichi NPP was declared as a no-entry zone.

Secretary Edano has also announced re-designation of the Evacuation Zone around Fukushima Daiichi NPP. He announced that "...the size of the evacuation zone around the station would be reduced from 10 km to 8 km, and that the order to evacuate based on the incident at Fukushima Daiichi Nuclear Power Station would be lifted from areas farther than 8km around the station."

Enforced Plan for Environmental Monitoring

On April 22, the Japanese Headquarters against Nuclear Disasters issued the Enforced Plan on Environmental Monitoring, with the objectives of getting an entire view of the accident and to supply necessary data to verify the decision to set the "Planned Evacuation Zone," taking into account the following items:

- Collecting data on the distribution of radioactive materials inside an appropriate area including the vicinity of the Fukushima-Daiichi Nuclear Power Station.
- Preparation for future evaluations on the changes of dose rate and accumulated amount of radioactive materials in all delineated zones around the Fukushima-Daiichi Nuclear Power Station.
- Information supply on environmental dose rate for personal dose evaluation of local residents.

Based on the results of environmental monitoring, the following maps will be produced that indicate distributions of dose rate and radioactivity:

- Dose rate map to confirm the current distribution of radioactive materials
- Accumulated dose estimation map that indicates annual dose in various areas based on the dose rate map after the accident considering the annual dose limit of 20 mSv
- Soil contamination map that indicates the distribution of the accumulated amount of radioactive nuclides in the surface soil.

This Enforced Plan on Environmental Monitoring will be conducted under the close cooperation between related organizations. Monitoring will be carried out by MEXT – including cooperation with JAEA, universities, **U.S.DOE**, Ministry of Defense, Prefectural Police, Electricity utilities and others. MEXT shall compile all the data collected.

To propel the environmental monitoring in a systematic and well-planned manner, MEXT and NSCJ shall cooperate with METI and other organizations, and establish realistic procedures for the standardizations on ranges and methods for the emergency environmental monitoring.

This email is UNCLASSIFIED.

Subject: Webstreaming From the Regional Offices
Date: Monday, March 28, 2011 4:27:27 PM

Hi Beth:

At the request of Kala Shankar, MCB Branch Chief, I'm reaching out to OPA and alert you to a pending Yellow Announcement regarding the anticipated expansion of Webstreaming to the Regional Offices.

Because ADM is proposing that approval authority for Webstreams originating from the Regional Offices be the responsibility of the local Public Affairs Officers, we are seeking OPA concurrence.

Can you identify a time / date when Kala and I could meet with you or your staff to brief you on this initiative?

Thanks!

NRC SCHEDULES OPEN HOUSE TO DISCUSS 2010 PERFORMANCE OF NORTH ANNA NUCLEAR POWER PLANT

The U.S. Nuclear Regulatory Commission staff has scheduled a meeting for Monday, April 4, to discuss the agency's assessment of safety performance during 2010 at the North Anna nuclear power plant. The plant, operated by Dominion, is on Lake Anna about 40 miles northwest of Richmond.

The meeting, which is open to the public, is scheduled for 5-7 p.m. at the North Anna Nuclear Information Center, 1022 Haley Drive, Mineral, Va. After the meeting, NRC staff will be available to answer questions on the safety performance of the North Anna plant last year, as well as the NRC role in ensuring safe plant operation.

"Each year, the NRC evaluates the safety performance of nuclear plants in a detailed and systematic way," NRC Region II Administrator Victor McCree said. "The inspections and oversight at North Anna ensure that the plant is operated in a way that protects people near the plant as well as the environment."

A letter sent from the NRC Region II office to plant officials addresses the performance of the plant during 2009 and will serve as the basis for the meeting discussion. It is available on the NRC web site at: www.nrc.gov/NRR/OVERSIGHT/ASSESS/LETTERS/na_2010q4.pdf.

The NRC found that the performance of Unit 1 at the North Anna plant met all of the agency's safety objectives in 2010 and was at a level that results in no additional NRC oversight. However, Unit 2 faces some additional oversight and inspections in 2011 due to a white performance indicator for four unplanned reactor scrams, or shutdowns, during the last four quarters that exceeded a threshold for unplanned scrams per 7,000 hours of operation.

The NRC uses color-coded inspection findings and performance indicators to assess plant performance. The colors start with "green," which has very low safety significance, to "white," which means low to moderate safety significance, to "yellow" or "red," based on the significance of the issues. Inspection findings and performance indicators are updated on the NRC's web site (www.nrc.gov) each quarter.

This year, the NRC plans to continue to conduct the very detailed inspections required at those plants that are operating well. In addition, the agency will complete some generic inspections related to operator licensing examinations and managing gas accumulation in emergency core cooling, decay heat removal and containment spray systems.

Current performance information for North Anna Unit 1 is available on the NRC web site at www.nrc.gov/NRR/OVERSIGHT/ASSESS/NA1/na1_chart.html . Current performance information for Unit 2 is at www.nrc.gov/NRR/OVERSIGHT/ASSESS/NA2/na2_chart.html .

David, thank you for the notification. In the future, as you just did, please send all erroneous or malicious external web site notifications etc to CS_IRT@nrc.gov or call 301-415-6666.

CISRT will take the lead by contacting US-CERT, OPA, OIG and others who will make contact and take action with the web site owner and associated Internet Service Provider or law enforcement agencies. Only those with official duties and capacity should be contacting the external entities on behalf of the US Government. As a rule, most agency actions are defensive in nature and we leave offensive actions to the proper authorities. Thank you, Charlie

Subject: NRC logo in plume map

Remove attributions to the NRC from the plume map. This map was not provided through any official or known unofficial channels of the NRC.

Subject: FW: NOUE Declared at Seabrook Station for Fire -- Daytime EO Report
Date: Monday, March 28, 2011 1:03:12 PM
Importance: High

Neil & Diane are aware, but just in case of questions to HQ – fire's out, no nuclear safety issue, barely met the requirements for a UE.

Subject: NOUE Declared at Seabrook Station for Fire -- Daytime EO Report

At 1143 EDT, Seabrook Station declared an NOUE for a fire in the protected area not extinguished within 15 minutes, under EAL category HU 2.

The HOO called together a response decision bridge just before noon today for a Notification of Unusual Event at Seabrook Station. Attendees on the call included Eric Leeds, David Lew, John Thorp-NRR Daytime EO, the Region 1 Duty Officer (missed the name), Seabrook Resident Inspector John Johnson, Sunil Weerakody, Scott Morris, and Ray Powell (I believe). This list may be incomplete, but were the names I heard on the call.

Resident Inspector John Johnson briefed the group on the situation at Seabrook. Summary: The fire appears to have been contained in a Control Box for the elevator equipment in a Residual Heat Removal Vault for the Bravo train of RHR. This elevator is for equipment transfer between elevations +7 and (-)61 foot levels in the plant. It is considered NON-Safety Related, and is not used for personnel movement between levels. The Vault is located in or adjacent to a Stair Tower leading to the (train B) ECCS equipment room. No other equipment appears to have been affected, but the status of other SSC's is being pursued by plant staff and followed up on by the Resident Inspectors.

When slide links were opened to de-energize the control box for the elevator equipment, the rate of smoke generation markedly decreased. No outside fire assistance was required and the fire as of the time of the call was reported to be OUT.

The Resident Inspector will also follow up with a question to determine whether tampering was involved or not.

At 1207 EDT, the ET decision maker, Eric Leeds, and Region I DRA, David Lew, agreed the agency response mode will remain in normal mode.

The Region I staff indicated they would continue to follow this event and make the appropriate notifications to the State, as well as identify any other communications or notifications to be made, including sending information to PAO staff. (Copy to Scott

Hi Beth,

I've looked into the links you sent. The first one is a conservative blog that we didn't know NRC was interested in. Let us know if you'd like us to keep an eye on it in the future. Also, two of the links in the list are for an AP story that was included in Friday's briefing.

We did not have the other stories. I apologize. Our team has been dealing with a much larger volume of news than usual and is working very hard not to miss all the relevant news of the day. We know these stories are important to you and we will reassess our processes and resources and see how we can be more effective in capturing that news for NRC.

We will include all the weekend's stories we omitted in tomorrow's briefing. Please let me know if you have any questions.

Best regards,
Juliana.

Juliana, Paul,

Can you shed some light on why these stories are not showing up in our news clips package? This is a lot of stories.

Below is the coverage of Friday's forum with Durbin and Kirk. None of which is in today's NRC in the News; not even a representative sample. Is our news service not catching Midwestern news? In addition, this weekend, coverage related to at least two other Region 3 plants is missing – Quad Cities and Kewaunee. Throughout the Japan crisis, most of the coverage in Midwestern press has not been picked up in the NRC in the News. And we have been way too busy to collect the clips and send them to HQ. Can we look into why this is happening? Please let us know. Thank you. Vika
