Address:
46 Homestead Rd
Washington, ME, 04574

General Comment

NRC should have provisions in place for maintaining electricity to the nuclear power plants for over a year. There are scenarios that could cause the possibility of lost of electric power and mobility of fuel that necessitates this provision. It is being proactive to preserve and protect the environment of the world and those who live on this earth.

Subject: Comment on Station Blackout ANPR
Attachments: NRC-2011-0299-DRAFT-0034.pdf

Attached for docketing is a comment from Janice Nelson on the above noted ANPR (77 FR 16175; March 20, 2012) that I received via the regulations.gov website on May 4, 2012.

Thanks,
Carol
