**Subject:** First RAI Response Information

During the review for the initial issue of CoC 9337, Michelle Sampson sent you a letter requesting additional information. We have been able to locate a partial response to that additional information request (an e-mail containing a Vectra report). However, as indicated in the partial response, you provided the bulk of the responses on a CD. Based upon prior conversations with Ms. Sampson, that CD did not meet the ADAMS formatting requirements and hard copies of the CD contents were apparently not entered into ADAMS. Can you provide a PDF of the RAI responses which were on the CD you originally submitted?

One of the technical reviewers for your current revision submittal is researching the history of the SAFKEG LS and was hoping to see the original RAI responses.

Thanks, Chris Allen
