Subject: Anadarko, Bear Creek Site License Amendment
Date: Tuesday, May 08, 2012 2:53:06 PM

Mr. McLaughlin,

I have just reviewed a letter from Paul Michalak concerning the "Initiation of Section 106 Process for the Proposed Anadarko Bear Creek Site License Amendment - Response to Question about Cultural Impact from the Proposed Action". Based on the contents of that letter (that no intrusive activities are being proposed or approved), no further consultation with our office under Section 106 is required.

However, I want you to be aware that neither the 1975 survey (prepared in support of the 1977 EIS), nor the documentation contained in the 2011 CatEx concerning moving fencing, meet current standards and guidelines for Class III Survey Reports.

It should also be noted, that our office cannot find documentation that information concerning the 2011 fence survey was ever submitted to our office for consultation. These documents should not be used in support of any further undertakings.

Sincerely,

Richard L. Currit
