Subject: Chapter 19 Feedback Request

Steve,

Luminant will be participating in the Chapter 19 conference call scheduled for May 16, 2012 that is between Mitsubishi and the NRC. I was wondering if we could take the opportunity to get some feedback from the Chapter 19 NRC reviewers on three R-COLA RAI questions. Specifically:

- Question 19-11 (RAI 166 or 4638) – this question has a status of “Question Closed / Issue Unresolved” however we are not aware of any follow up questions that are tracking an unresolved issue. We would like to know what the unresolved issue is so that we can work to get it resolved. We responded to the question in TXNB-10046 dated June 24, 2010. The question relates to site-specific key assumptions and SMA results.
- Questions 19-17 and 19-18 (RAI 232 or 6045) – these question currently have a status of “Responded”. Luminant provided the response approximately five months ago on 12/8/11 (see TXNB-11085), however we have not yet received feedback as to whether our responses are acceptable or not. We would like to get this feedback. The questions concerned the screening of external events and some clarifications.

These three questions have been discussed at our bi-weekly conference calls for some time now without receiving feedback. We thought that if the appropriate people are involved in this May 16th conference call, that they could give us the feedback we have been seeking. Please let Don or I know if you can do this, and please forward the above information on the three questions to the appropriate people.

Thanks,
Todd
