SUBJECT: CMT, INC., FILING FOR BANKRUPTCY AND NOTIFICATION
REQUIREMENTS, CONTROL NO. 577469

Dear Mr. Juncos:

The NRC received information that CMT, Inc., may be planning or may have already filed for bankruptcy. On April 26, 2012, Sattar Lodhi of this office called your office to obtain details or confirmation of the filing. A member of your staff confirmed that CMT, Inc., was in process of filing for bankruptcy, but she could not provide any details of the proposed filing. Sattar Lodhi explained to her the NRC regulation regarding notification of bankruptcy filing by a licensee, and requested her to have your attorney contact him so that he/she may provide this office with details of the bankruptcy filing by your corporation. As of the date of this letter, neither your attorney nor anyone else from your office has contacted this office to provide the requested information.

Please note that NRC regulations in 10 CFR 30.34(h)(1) require that licensees that are the subject of a bankruptcy filing, immediately notify the NRC, in writing of the filing. The purpose of the regulations is to ensure that public health and safety is adequately protected, and all licensed material is properly controlled.

Please be reminded that even though CMT, Inc., may be involved in bankruptcy proceedings, the above NRC license continues to remain in full effect even beyond its stated expiration date, until terminated in writing by the NRC. If the licensee no longer exists as an entity, the person with legal control of licensed material, contaminated equipment or property transferred by the licensee, is obligated to control all licensed material and to decontaminate and decommission the facilities or equipment, and to comply with applicable NRC requirements.

The bankruptcy filing does not relieve CMT, Inc., of its responsibilities to comply with NRC requirements, including those relating to security and control of licensed materials, decontamination and decommissioning of contaminated facilities, and retention of personnel required by the license conditions. You may not transfer control of the license without prior written approval of NRC, and you may not transfer licensed material except as authorized by the NRC regulations.

You should ensure that your attorney and any trustee involved in the bankruptcy proceedings are aware of these obligations and the related NRC requirements. Pursuant to Section 184 of the Atomic Energy Act, a reorganized entity emerging from Chapter 11 bankruptcy is required to receive written approval of NRC prior to its assumption of control over licensed activities.

Please notify this office immediately, in writing if CMT, Inc., is unable to meet any of these requirements/conditions. Also please notify this office: (1) of any changes to your licensed activities that the bankruptcy court may require, (2) when the bankruptcy proceeding is completed, and (3) when CMT, Inc., emerges out of bankruptcy.

Because the regulations cited above require each licensee to provide the required notification, we request your assistance in providing to us the names, addresses and telephone numbers of any other entities who may be affected by the bankruptcy (i.e. other daughter companies/subsidiaries of CMT, Inc., where such entity has an NRC or Agreement State license).

We will continue to monitor your activities to ensure that all licensed material remains secure from unauthorized access/removal, and is being used in full compliance with all applicable requirements. Please call Sattar Lodhi of this office at (610) 337-5364 if you have any questions regarding this matter.

NRC Region I office has relocated to a new address. Please send all future correspondence related to your license, including the required notifications to:

USNRC Region I
