Changes to the Nine Mile Point Nuclear Station Physical Security, Safeguards  
Contingency, and Security Training and Qualification Plan

Pursuant to the requirements of 10 CFR 50.54(p), attached are the changed pages for Issue 7, Revision 3, of the Nine Mile Point Nuclear Station Physical Security, Safeguards Contingency, and Security Training and Qualification Plan (the Plan). A summary of changes is provided in Attachment 1 and the revised pages are provided in Attachment 2. Attachment 2 is classified as Safeguards Information.

This revision of the Plan was performed due to construction of the new Independent Spent Fuel Storage Installation within the protected area. Nine Mile Point Nuclear Station, LLC (NMPNS) has reviewed the changes in accordance with applicable site procedures and determined that they do not decrease the effectiveness of the Plan or the overall Nuclear Security Program for NMPNS.
