additional questions. If the second or third option is chosen, you should supply the supporting information and documentation, and provide clear indication as to the purpose of each submitted document.

Please also note that, per Section 6 of NUREG-1556, Vol. 8, an application for a distribution license should not contain information concerning the possession and use of radioactive material covered in the possession license. Since items 7 through 11 of NRC Form 313 pertain to possession and use license and are not applicable to the exempt distribution license, applicants should only complete items 1 through 6, 12 and 13. These latter sections are the ones that are reviewed for the purpose of your exempt-distribution license.
