Dear Mr. Deluise:

This refers to your letter dated February 10, 2012, requesting that Dr. Randolph Robertson's authorizations under NRC License No. 13-13028-02 be extended to include some sodium iodide I-131 usage. Review of this matter determined that additional information was necessary to complete this request. On April 4, 2012, I discussed this matter with your nuclear medicine physicist, Mr. Patrick Byrne, by telephone and he agreed to pursue it. On April 27, 2012, Mr. Byrne contacted me by e-mail and informed me that the additional information was not available at this time and requested that we void the request.

Based on this notification from Mr. Byrne, we have voided your request. This action is without prejudice to resubmission. If you resubmit your request, please state that the resubmission is additional information to Control Number 576972.

If you have any questions or require clarification on any of the information stated above, you may contact us at (630) 829-9887.

In accordance with 10 Code of Federal Regulations 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

A handwritten signature in black ink, appearing to read "B. A. Parker".
