**Subject:** RE: Indian Point Internals

These are the questions I wanted to discuss:

Questions for January 12, 2012 Telecon with Entergy Regarding IP2 & IP3 Reactor Vessel Internals Inspection Plan and LRA Amendment 9

1. When do you plan to submit a revision to the RVI Inspection Plan to address Applicant/Licensee Action Item Nos. 5 (hold-down spring), and 6 (lower support column body analysis), and make the RVI Inspection Plan consistent with MRP-227-A?
2. Do you plan to submit a revision to LRA Amendment 9 that will be consistent with Revision 2 of GALL and MRP-227-A. If so, what is the schedule for this submittal? (ISG expected in next couple of months)

Any others anyone can think of would be welcome. I will bring copies of my draft RAI's.
