Docket No. 030-38509
Control No. 577261

License No. 08-31461-01

Robert J. Dalessandro
Director, Center of Military History
Department of the Army
US Army Center of Military History
103 Third Avenue, Building 35
Fort McNair, DC 20319-5058

SUBJECT: DEPARTMENT OF THE ARMY, LICENSE TERMINATION, CONTROL NO.
577261

Dear Mr. Dalessandro:

Please find enclosed Amendment No. 1 terminating License No. 08-31461-01 as requested by your letter dated March 29, 2012. This termination is being issued in accordance with the requirements of the applicable NRC License Termination Rule (10 CFR 30.36, 10 CFR 40.42, and 10 CFR 70.38). All facilities previously used for licensed activities may be released for unrestricted use.

Please note that the gauges and dials containing radium that you possess at your museums are under a general license pursuant to 10 CFR 31.12. The general license does not require an application and you do not receive any document from the NRC, but you must comply with requirements in the regulations, such as those in 10 CFR 31.12(c) for reporting, transfer and disposal. These items are not exempt from NRC jurisdiction.

At this time, there are only two categories of radium sources that are exempt from licensing under NRC regulations. The first category is described in 10 CFR 30.15(a)(1)(viii), for intact timepieces containing up to 1 microcurie of radium-226 per timepiece which were manufactured prior to November 30, 2007. The other is described in 10 CFR 30.20, for radium-containing smoke alarms manufactured or distributed before November 30, 2007.

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits**, see our **toolkit index page**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 8:00 a.m. to 5:30 p.m. EST, Monday through Friday (except Federal holidays).

R. Dalessandro
