MEMORANDUM TO: Edwin M. Hackett, Executive Director
Advisory Committee on Reactor Safeguards

FROM: John D. Monninger, Associate Director */RA/*
Japan Lessons-Learned Project Directorate
Office of Nuclear Reactor Regulation

SUBJECT: DRAFT PROGRAM PLANS AND STATUS SUMMARIES FOR
TIER 3 JAPAN LESSONS LEARNED RECOMMENDATIONS

On May 22-23, 2012, the Japan Lessons-Learned Project Directorate staff presented to the Advisory Committee on Reactor Safeguards (ACRS) Fukushima Subcommittee the enclosed program plans and status summaries. These program plans and status summaries address those Japan lessons learned program recommendations that are designated Tier 3. As stated in SECY-11-0137, "Prioritization of Recommended Actions to be Taken in Response to Fukushima Lessons Learned," Tier 3 recommendations are those that require further staff study to support a regulatory action, have an associated shorter-term action that needs to be completed to inform the longer-term action, are dependent on the availability of critical skill sets, or are dependent on the resolution of Near-Term Task Force (NTTF) Recommendation 1.

The ACRS previously provided its recommendations on the NTTF recommendations, and the staff's proposed responses to the NTTF recommendations, in letters dated October 13, 2011, (Agencywide Documents Access and Management System (ADAMS) Accession No. ML11284A136), November 8, 2011, (ADAMS Accession No. ML11311A264), February 15, 2012, (ADAMS Accession No. ML12046A145) and March 14, 2012 (ADAMS Accession No. ML12072A201). The staff's enclosed plans for Tier 3 recommendations, as well as the staff's ongoing Tier 1 and Tier 2 activities, include consideration of these ACRS recommendations.

The staff presented drafts of the enclosed Tier 3 plans during public meetings on May 3, 7, and 14, 2012.
