### Emergency Alert System

The Pennsylvania State Emergency Alert System is the FCC-mandated document outlining the organization and implementation of the State of Pennsylvania's Emergency Alert System. The purpose of the document is to operationally define the system intended for the dissemination of emergency information and warnings to the general public within the Commonwealth of Pennsylvania utilizing the resources of the Broadcast and Cable Industries. The existence of the EAS Plan supersedes the need for specific agreements and/or statements of understanding.

A copy of the Pennsylvania Emergency Alert System State EAS Plan is included as Attachment 13.
