OFFICE OF SECRETARY  
RULEMAKINGS AND  
ADJUDICATIONS STAFF

Dear Nuclear Regulatory Commission:

A year ago, the U.S. government ordered all Americans to remain more than 50 miles away from Fukushima.

I urge the Nuclear Regulatory Commission to improve public safety around our own nuclear power plants by expanding evacuation plans to a 50-mile radius for all U.S. reactors.

Sincerely,  
Kevin Leppmann
