Subject: Please expand evacuation zones

May 23, 2012 (11:45 am)

OFFICE OF SECRETARY
RULEMAKINGS AND

Your Action ContentThe nuclear disasters at Fukushima and Chernobyl provide real-world and plain evidence that the current 10-mile emergency evacuation zones in the U.S. are simply too small, and cannot adequately protect the public from the possibility of acute radiation exposures. Moreover, as we have learned in recent months and years, women and children are more susceptible to radiation than men: regulations must protect the most vulnerable in society.
