Subject: Comments on PRM-50-104, Docket ID NRC-2012-0046

May 23, 2012 (11:45 am)

OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

We, the people, care for our children and their children's children. We know and feel these are crucial times because of 3/11 and Fukushima Daiichi meltdowns. The most urgent thing to do on this Earth today is to get these fuel rods out of the Spent Fuel Pools.

The place should be brimming with the INTERNATIONAL cream of the crop, in all trades, highly-skilled workers and operators, superior technicians, high-tech roboticists, technicians, engineers, scientists all provided with the best equipment, unlimited funding by the international community, and rewarded by our gratefulness and the largest salaries. THE WHOLE CREW equally paid, fully informed, motivated by the preservation of mankind and by the potency of their task. And us watching and blessing them.

And what do we see? Nothing on the lousy footage but scarcely overseen mess. SHAME ON UNO's helplessness, SHAME ON silent MSM, SHAME ON TEPCO and Nuclear Dirty Business and their financial acolytes. SHAME ON the scientific community.

Only a few voices in the wilderness. This is intolerable.

IT IS HIGH TIME THEY WOKE UP.WE ARE HERE. WE WATCH. WE CARE. WE WANT INTERNATIONAL ACTION NOW.

NO MORE HALF-LIFE.WE WANT FULL LIFE. CAN YOU HEAR OUR VOICES? I REPEAT. CAN YOU HEAR OUR CONSCIENCE SHOUTING?

In peace and with hope. Love to ALL. For love can wake "them" up.

And in the meantime, I request that the NRC adopt the proposed rule expanding emergency planning zones to the respective 25, 50, and 100 mile zones and add a new requirement that emergency exercises include scenarios of regionally appropriate initiating or concurrent natural disasters. NOW

Thank you,

Elisabeth Bilien

Reims, ot France
