OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

I strongly support increasing our solar, wind, and other clean renewable fuels. However, if we cannot stop all nuclear, I ask that we increase the evacuation area and make sure that every citizen is aware of the dangers of a nuclear accident and how to best avoid the results of them.

I request that the NRC adopt the proposed rule expanding emergency planning zones to the respective 25, 50, and 100 mile zones and add a new requirement that emergency exercises include scenarios of regionally appropriate initiating or concurrent natural disasters.

Thank you,

Therese MacKenzie
