Subject: Nuclear Disaster Evacuation Zones

May 23, 2012 (11:45 am)

OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

Dear Sirs:

I do not (thank God) live near a reactor, but I do have family who does. If "Fukushima" did indeed happen to one of those reactors, they would be deep in the damage zone.

I consider the proposed changes only sense, if the government does indeed CARE ABOUT ITS CITIZENS at all. Please think deeply about what YOUR reactions would be, for you AND your family; and then consider that once you are elected or appointed to make these decisions for us, you are in a very real sense our FAMILY, and the decisions you make WILL affect us.

Please act responsibly, no matter what anyone tells you.

Dan Mortenson
