May 23, 2012 (11:45 am)

OFFICE OF SECRETARY  
RULEMAKINGS AND  
ADJUDICATIONS STAFF

Nuclear power is too expensive, too dangerous, limited, and just overall non-viable to continue any more. Phase it out completely, and replace it with space-based solar power, which is the ultimate clean, cheap, and inexhaustible source of energy currently within our grasp.

Nuclear sucks. Space-based solar rocks. Really.
