OFFICE OF SECRETARY  
RULEMAKINGS AND  
ADJUDICATIONS STAFF

I agree with the issues raised in this petition, and with the solutions to the problems. I request that the NRC adopt the proposed rule expanding emergency planning zones to the respective 25, 50, and 100 mile zones and add a new requirement that emergency exercises include scenarios of regionally appropriate initiating or concurrent natural disasters.

Furthermore, I would like you to set up a clearinghouse where people can post their own geiger counter readings, so as to gather more data about more effective zonation.

Thank you,

Norrie Robbins
