OFFICE OF SECRETARY  
RULEMAKINGS AND  
ADJUDICATIONS STAFF

I live less than 30 miles from the aging Cook Nuclear Plant in Bridgman, MI. it has been in operation for almost 40 years. Its design and operational technology is from the past.

It is for this reason that I request that the NRC adopt the proposed rule expanding emergency planning zones to the respective 25, 50, and 100 mile zones and add a new requirement that emergency exercises include scenarios of regionally appropriate initiating or concurrent natural disasters.

My life and those of my family may very well depend on it.

Thank you,

Lloyd Loring
