Freedom of Information Office  
US NRC

Dear Freedom of Information Officer,

Under the provisions of the Freedom of Information Act, I request access to information in possession of the NRC. In specific, I request copies of records related to an inquiry by the Office of Investigation related to the decommissioning funds of the Exelon Corporation. I believe the inquiry was conducted within the past year and concerned the amount of money that Exelon was setting aside for decommissioning at nuclear plants.

I am seeking this information for possible use in a news article, therefore I request that you waive fees for searching and copying. If you do not waive fees, please advise me of the fees before filling my request. I request that you provide the records electronically. You can contact me at this email address or by telephone at (b)(6) or (b)(6)

If my request is denied, please provide the reason for the denial.

Thank you for your time and consideration.
