Steven Francoeur, Ph.D.
Radiation Safety Officer
Eastern Michigan University
Department of Chemistry
Jefferson Science Building,
Room 225
Ypsilanti, MI 48197

Dear Dr. Francoeur:

Enclosed is Amendment No. 28 to your NRC Material License No. 21-06885-01 in accordance with your request to name a Radiation Safety Officer. Please note that the changes made to your license are printed in **bold** font.

In addition, note that we have made changes to License Conditions 13 (leak-test) and 16 (decay-in-storage) of your Material License to update them to reflect the current NRC policies and procedures.

Please read the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

In accordance with 10 Code of Federal Regulations 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,
