SUBJECT: ABB, INC., RECEIPT OF FINAL STATUS SURVEY REPORTS NO. 6
(CONTROL NO. 577311) AND NO. 7 (CONTROL NO. 577523)

Dear Mr. Conant:

This letter acknowledges the receipt of your letters dated April 9, 2012, transmitting Final Status Survey (FSS) Report No. 6, and May 10, 2012, transmitting FSS Report No. 7, for your facility in Windsor, Connecticut. The NRC will review these reports and provide a written response, indicating either acceptance of the FSS Reports or requesting additional information that we need to support a conclusion that the areas represented by the FSS data have met the criteria for release for unrestricted use as described in your Decommissioning Plan and NRC regulations. It should be noted that acceptance of an FSS Report does not authorize release of that area for unrestricted use.

As indicated in your letters, we understand that you will request license termination once you have submitted all seven of the FSS Reports. The NRC is considering the seven FSS Reports and your expected license termination request as a single licensing action. We have forwarded copies of the FSS Reports to the United States Army Corps of Engineers for their review and information, as requested in your letters.

Thank you for your cooperation in this matter. If you have any questions regarding this letter, please call John Nicholson at (610) 337-5236.

J. Conant
