OFFICE OF SECRETARY  
RULEMAKINGS AND  
ADJUDICATIONS STAFF

I urge you to learn from past nuclear disasters. The nuclear disasters at Fukushima and Chernobyl provide real-world and plain evidence that the current 10-mile emergency evacuation zones in the U.S. are simply too small, and cannot adequately protect the public from the possibility of acute radiation exposures.

Again, I urge you to demonstrate common sense in this matter.

Thank you very much.

Sincerely,  
Kathleen M. Armstrong  
Flagstaff, Arizona
