**SUMMARY**

We have conducted a preliminary review your license amendment March 6, 2012, and March 13, 2012, requests and find that we are unable to continue this action until we have received information regarding the following:

1. You have requested that Kambiz Shahnazi, Ph.D., be added as an Authorized Medical Physicist. The NRC Form 313A (AMP) indicates training provided on the HDR, but does not indicate dates on which training was provided. Please resubmit Page 3 of the NRC Form 313A (AMP) noting training dates.  
**RESPONSE: Licensee submitted requested information via facsimile, in a letter dated April 18, 2012. No additional information is required to complete the action.**
2. You have requested that Noah A. Taylor, M.D., be added as an Authorized User (AU) for 10 CFR 35.300, 35.400, and 35.600 materials use. However, his previous experience, in Texas, was on a different make & model HDR unit than the one authorized under this license. Also, the Texas license does not authorize the use of 10 CFR 35.300 & 35.400 materials. For HDR authorization, Please indicate additional training completed or to be completed, specifically relevant to your facility's HDR instrument. For 10 CFR 35.300 & 35.400 authorizations, additional training & experience will be needed.  
**RESPONSE: The April 18, 2012 response letter included a commitment that Dr. Taylor will be provided training on the licensee's, NRC License No. 13-25945-01, HDR instrument. In addition, the licensee noted that Dr. Taylor has been listed previously as an AU for 10 CFR 35.300 & 35.400 materials, on NRC License No. 06-08544-01. No additional information is needed to complete the action.**

No additional information is required at this time. Any additional information may be submitted via facsimile, to (630) 515-1078, or as a pdf attachment to an email, directed to sara.forster@nrc.gov.
