**Subject:** Stomwater/retention/infiltration...ponds

Hi Jody,

**NRC is not letting e-mails from ecologyparty.org through so I'm sending from my personal address. NRC e-mails do come to the ecologyparty address, so please reply all & then a copy will go to the normal place.**

I got a copy of the e-mail you sent to Mary on the 17th, saying you were working on a response to my e-mail below of the 13th.( I hadn't heard back so I wasn't sure you'd even received it & were formulating a response.)

In the meantime, Kym Harshaw confirmed that according to PEF, the names are all for the same stormwater ponds. I will assume NRC Staff agrees.

I still cannot find a depth for the "ponds" in the FEIS. Could you please confirm either that the FEIS does not provide the depths or where that information is located?

Sorry to bother you- I know you're busy.

Cara

**Subject:** Ponds at Levy

Hi Jody, Doug

It appears that the exact same ponds are variously referred to as "retention and filtration ponds," "stormwater-retention ponds," "stormwater ponds," "stormwater-retention and infiltration ponds" and "wet detention ponds." The only size I can find refers to the latter. Would you please confirm that these are all the same ponds as in the site diagram? Also, I cannot find in the FEIS how deep these would be. Must I refer to the PEF motion for summary disposition affidavit to find the data or is it supplied somewhere in the FEIS?

Thanks.

Cara
