Event Date - Time : 5/29/2012 - 12:05 (EDT)
Site : BRUNSWICK
Emergency Class : NON EMERGENCY

"Offsite Notification to North Carolina Wildlife Resource Commission

"On May 29, 2012, a Loggerhead Sea Turtle was retrieved from the 2D circulating water pump intake trash rack. The turtle was emaciated with no visible signs of injury. The condition of the turtle indicates that the death was recent. Therefore, the lethal take is most likely attributed to plant operations. A necropsy will be performed and, if it is determined that the take is not attributed to plant operations, an update to this notification will be made. Notification to the North Carolina Wildlife Resource Commission was completed at 1205 hours Eastern Daylight Time (EDT).

"This non-emergency notification is being made pursuant to 10 CFR 50.72(b)(2)(xi) due to the notification to the state agency."

The licensee has notified the NRC Resident Inspector. Notified R2DO (Vias) and Endangered Species Group (via email).
