MEMORANDUM TO: Matthew A. Mitchell, Chief  
Policy and Support Branch  
Japan Lessons-Learned Project Directorate  
Office of Nuclear Reactor Regulation

FROM: John V. Kauffman, Senior Project Manager /RA/  
Policy and Support Branch  
Japan Lessons-Learned Project Directorate  
Office of Nuclear Reactor Regulation

SUBJECT: SUMMARY OF MAY 7, 2012, PUBLIC MEETING ON  
PRELIMINARY PLANS FOR THE IMPLEMENTATION OF TIER 3  
RECOMMENDATIONS RELATED TO THE FUKUSHIMA  
DAI-ICHI NUCLEAR POWER PLANT ACCIDENT

The U.S. Nuclear Regulatory Commission (NRC or the staff) held a public meeting on May 7, 2012. The purposes of this meeting were to brief stakeholders on the staff's preliminary plans for implementation of the Tier 3 recommendations, provide an opportunity for stakeholders and the staff to exchange information on the Tier 3 recommendations, and afford stakeholders an opportunity to ask the staff clarifying and amplifying questions on the plans and provide input for consideration before the plans are finalized.

The meeting was the second in a series of three, focused specifically on the Tier 3 recommendations. The staff gave presentations on preliminary plans for Fukushima Near-Term Task Force (NTTF) Recommendation 2.2, "Periodic Confirmation of Seismic and Flooding Hazards," NTTF Recommendation 12.1, "Reactor Oversight Process Modifications to Reflect the Recommended Defense-in-Depth Framework," NTTF Recommendation 12.2, "Staff Training on Severe Accidents and Resident Inspector Training on Severe Accident Management Guidelines," and an additional recommendation "Reactor and Containment Instrumentation Withstanding Beyond-Design-Basis Conditions." Following the individual staff presentations, the public had an opportunity to discuss the preliminary plans. The working groups will consider the public comments in developing the final plans for the Tier 3 recommendations. The draft project plans for comment and public meeting presentations are included in the meeting package.

#### Public Participation

In general, there was little active discussion regarding the staff's plans for the Tier 3 topics presented. No written comments from the public were received.
