Basis for authorizing Dr. Ricardo Santiago as Radiation Safety Officer (RSO)

The letter dated March 13, 2012 requested to authorize Dr. Ricardo Santiago as an authorized user (AU) for uses permitted under 10 CFR 35.100, 35.200, and 35.300. Dr. Santiago is already an AU on the licensee's license for those uses, and was authorized in Amendment No. 1 (April 10, 2012), which had not yet been issued at the time of the current request.

The amendment request letter also requested to add Dr. Ricardo Santiago as RSO. Supplemental information submitted by the licensee states that Dr. Santiago will be accepting the position of RSO under the license. A search in ADAMs of Dr. Ricardo Santiago identified him as an RSO and current AU for 10 CFR 35.100, 35.200, and 35.300 uses on license 52-25400-01. The amendment to add Dr. Santiago as RSO was issued.
