SUBJECT: ARKANSAS NUCLEAR ONE – NRC SECURITY INSPECTION
REPORT 05000313/2012403, 05000368/2012403

Dear Mr. Schwarz:

On April 26, 2012, the U.S. Nuclear Regulatory Commission (NRC) completed a security baseline inspection at Arkansas Nuclear One, Units 1 and 2. The inspection covered one or more of the key attributes of the security cornerstone of the NRC's Reactor Oversight Process. The enclosed inspection report documents the inspection results, which were discussed on April 26, 2012, with Mr. D. James, NSA Director, and other members of your staff.

The inspection examined activities conducted under your license as they relate to security and compliance with the Commission's rules and regulations and with the conditions of your license. The inspectors reviewed selected procedures and records, observed activities, and interviewed personnel.

There were no NRC-identified or self-revealing findings identified during this inspection.

However, a licensee-identified violation which was determined to be of very low security significance is listed in this report. The NRC is treating this violation as a non-cited violation (NCV) consistent with Section 2.3.2 of the Enforcement Policy.

If you contest any NCV in the enclosed report, you should provide a response within 30 days of the date of this inspection report, with the basis for your denial, to the Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington DC 20555-0001; with copies to the Regional Administrator, Region IV; the Director, Office of Enforcement, United States Nuclear Regulatory Commission, Washington, DC 20555-0001; and the NRC Resident Inspectors at Arkansas Nuclear One.
