SUBJECT: TERMINATION OF YOUR NRC RADIOACTIVE MATERIALS LICENSE

Dear Mrs. Baltes:

In letter dated December 21, 2010, you contacted the U. S. Nuclear Regulatory Commission and indicated that you wished to terminate your NRC radioactive material license. In response to our letter dated March 23, 2011, you provided additional information to support this request with your May 4, 2011 letter. Upon review, we notified you in letter dated July 23, 2011 that additional information was necessary, and Thomas Ryan, D.O., Radiation Safety Officer, provided this information with his letter dated March 7, 2012. The NRC staff has reviewed all of this information, including your final status surveys. Based on its review, the staff has concluded that all licensable radioactive material has been removed from your facility and residual radioactive material attributable to licensed activities does not exceed current NRC criteria.

Based on these conclusions, no further remediation or actions with respect to NRC regulated material is required. Your facility at 625 W. Berry Street, Fort Wayne, Indiana, is suitable for unrestricted use and NRC License No. 13-32694-01 is hereby terminated.

In accordance with 10 Code of Federal Regulations 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

If you have any questions, please contact me at (678) 828-7050 or by e-mail at [bryan.parker@nrc.gov](mailto:bryan.parker@nrc.gov).

Sincerely,
