Balwant,

Luminant would like to meet with the applicable NRC Staff to discuss our plans to submit a License Amendment Request for a one-time extended Completion Time for TS 3.8.1, Required Action A.3 to allow for plant modification to install a backup transformer for one of our two offsite AC sources. Attached is a draft of a presentation we have prepared for the meeting. Luminant would be represented by:

Jeff Lamarca – Project Manager

Tim Hope - Manager, Nuclear Licensing OR Rob Slough – Regulatory Affairs

Tamera Ervin-Walker – Regulatory Affairs

Nathan Larson – Risk Assessment

We would like to meet with the staff at the earliest opportunity that can accommodate the current commitments of the parties involved. Tim Hope will be unavailable the weeks of 6/11 and 6/18. I am available at any time during June with the exception of 6/5, 6/20, and 6/21. To my knowledge, the other persons listed above can be available at any time during June.

Thanks,
Rob
