Subject: Confirmation of authorizations for two authorized users

(NOTE: This will be used as the
Documents Title in ADAMS)

This amendment is to remove 14 of 20 authorized users and to add 8 new authorized users. When I was verifying that Dr. Michael T. O'Loughlin and Dr. Brian J. Grogan were on the Johnson Memorial Hospital (JMH) license (NRC license number 06-16624-01), I noticed that two of the physicians currently listed on the Jefferson Radiology license (Dr. Bruce Arose and Dr. Steven Urbanski) had more authorizations on the JMH license. On the JMH license, they are both listed for 35.100, 35.200, and the oral administration of sodium iodide iodine-131 in quantities less than or equal to 33 millicuries, but on the Jefferson Radiology license, they are only listed for 35.100, 35.200, and the oral administration of sodium iodide iodine-131 for imaging and localization studies. I called Dr. Rosenberg to ask if he wanted Dr. Arose and Dr. Urbanski to be authorized for I-131 less than or equal to 33 millicuries. He said yes if at all possible.

Action Required: Give Dr. Arose and Dr. Urbanski authorization for the oral administration of sodium iodide iodine-131 in quantities less than or equal to 33 millicuries. Process license amendment
