Good Day Bruce,

Thank you for your time earlier today regarding our request to amend the procedures for handling spark gap tubes, submitted to your office on February 21, 2012.

We submitted the same document to the State of New York, and are now in receipt of our amendment from the State which I have sent to your attention as part of this email.

Should there be any questions or concerns regarding our request to amend our NRC license, please feel free to contact our office at your earliest convenience.

Best regards,
Peter
