

June 5, 2012

MEMORANDUM TO: Lynn Mrowca, Branch Chief
PRA Support Branch
Division of Safety Systems and Risk Assessment
Office of New Reactors

Donnie Harrison, Branch Chief
PRA Licensing Branch
Division of Risk Assessment
Office of Nuclear Reactor Regulation

FROM: Gary Demoss, Branch Chief */RA/*
Performance and Reliability Branch
Division of Risk Analysis
Office of Nuclear Regulatory Research

SUBJECT: REVIEW OF DRAFT NUREG-2122, "GLOSSARY OF RISK-RELATED TERMS IN SUPPORT OF RISK-INFORMED DECISION MAKING"

The Performance and Reliability Branch is forwarding the enclosed preliminary draft of NUREG-2122, "Glossary of Risk Related Terms in Support of Risk-Informed Decision Making," for your review and comment. We request that you provide us with any comments on this NUREG by September 12, 2012. This draft has been developed as part of the work described in the RES response to user need request NRR/NRO-2011-009, and is being provided concurrently with the public review and comment period. A public meeting on this document has been announced for June 19, 2012 (ML121440538).

The extended and concurrent comment periods described above are a deviation from the usual process, which is a 60-day internal review, followed by an external comment period. This approach was discussed and agreed upon based on the unique nature of this document, which is a consensus glossary of PRA-related terms containing no analytical or regulatory conclusion. The approach allows RES to address staff and public comments in a single pass, which will ensure a more complete, balanced, and technically correct document. Additionally, it will reduce the preparation costs and lead to earlier issuance of the final NUREG.
