

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D.C. 20555-0001

June 11, 2012

Mr. Michael J. Pacilio  
President and Chief Nuclear Officer  
Exelon Nuclear  
4300 Winfield Road  
Warrenville, IL 60555

SUBJECT: LASALLE COUNTY STATION, UNIT 1 - REQUEST FOR WITHHOLDING  
INFORMATION FROM PUBLIC DISCLOSURE (TAC NO. ME8568)

Dear Mr. Pacilio:

By letters to the U.S. Nuclear Regulatory Commission (NRC) dated March 6, 2012 and March 8, 2012 (Agencywide Documents Access and Management System (ADAMS) Accession Nos. ML12068A384 and ML12139A014), Exelon Generation Company, LCC, submitted an affidavit dated January 18, 2012, executed by Andrew A. Lingenfelter on behalf of Global Nuclear Fuel – Americas, LLC (GNF-A), requesting that the information designated as proprietary in the following documents be withheld from public disclosure pursuant to paragraph (a)(4) of Title 10 of the *Code of Federal Regulations* (10 CFR), Part 2, Section 2.390:

- Attachment 1 of EGC Letter, dated March 6, 2012, Core Operating Limits Report for LaSalle Unit 1 Cycle 15, Revision 0
- Attachment 1 of EGC Letter, dated March 8, 2012, Core Operating Limits Report for LaSalle Unit 1 Cycle 15, Revision 1

A non-proprietary copy of this document has been placed in the NRC Public Document Room and added to the NRC ADAMS Library. The non-proprietary copy is contained in Attachment 2 of letters dated March 6, 2012 and March 8, 2012.

The affidavit stated that the submitted information should be considered exempt from mandatory public disclosure for the following reasons:

- (a) Information that discloses a process, method, or apparatus, including supporting data and analyses, where prevention of its use by GNF-A's competitors without license from GNF-A constitutes a competitive economic advantage over other companies; and
- (b) Information which, if used by a competitor, would reduce his expenditure of resources or improve his competitive position in the design, manufacture, shipment, installation, assurance or quality, or licensing of a similar product.

We have reviewed your application and the material in accordance with the requirements of 10 CFR 2.390 and, on the basis of the statements in the affidavit, have determined that the submitted information sought to be withheld contains proprietary commercial information and should be withheld from public disclosure.

M. Pacilio

- 2 -

Therefore, the version(s) of the submitted information marked as proprietary will be withheld from public disclosure pursuant to 10 CFR 2.390(b)(5) and Section 103(b) of the Atomic Energy Act of 1954, as amended.

Withholding from public inspection shall not affect the right, if any, of persons properly and directly concerned to inspect the documents. If the need arises, we may send copies of this information to our consultants working in this area. We will, of course, ensure that the consultants have signed the appropriate agreements for handling proprietary information.

If the basis for withholding this information from public inspection should change in the future such that the information could then be made available for public inspection, you should promptly notify the NRC. You also should understand that the NRC may have cause to review this determination in the future, for example, if the scope of a Freedom of Information Act request includes your information. In all review situations, if the NRC makes a determination adverse to the above, you will be notified in advance of any public disclosure.

If you have any questions regarding this matter, I may be reached at 301-415-1115.

Sincerely,

A handwritten signature in black ink, appearing to read 'Nicholas J. DiFrancesco', with a long horizontal flourish extending to the right.
