**Cc:** Habib, Donald; Tonacci, Mark  
**Subject:** Revised Safety Schedule Letter  
**Attachments:** IBMgetContent.pdf

Hi Bob,

As we just discussed, David Matthews, Director of the Division of New Reactor Licensing, signed the revised schedule letter for Levy Nuclear Plant Units 1 and 2 COL review today, May 17<sup>th</sup>. It will be made public on May 25, 2012. Attached is a copy for your use.

The letter states that the review supports the issuance of a final safety evaluation report in October 2012. The FSER date is based on the following key assumptions:

- Progress Energy Florida meets the “Schedule for Option A Evaluations” milestones proposed in its April 27, 2012, public meeting presentation to NRC (Accession No. ML12115A315);
- PEF demonstrates that the appropriate updated seismic modeling results are completely bounded by the previous results; and
- The information submittals are complete and would not result in the need for additional RAIs.

Should your analysis indicate that the updated modeling results are not fully bounded, an alternate schedule will be developed based on your revised FSAR submittal revision dates.

In addition, should the pending merger involving Duke Energy be completed before NRC issues the FSER, PEF would need to submit a revised COL application containing appropriate updated financial and ownership information, and the staff would need to evaluate the updated information. Any resulting effect on the Levy schedule would depend on the timing of these submittals.

If you have any questions, please contact Don Habib at 301 415-1035 or me at 301 415 6822.

Thank you.

Amy

Mr. John Elnitsky, Vice President  
Nuclear Plant Development  
Progress Energy Florida, Inc.  
P.O. Box 14042  
Saint Petersburg, FL 33733

SUBJECT: LEVY NUCLEAR PLANT, UNITS 1 AND 2 COMBINED LICENSE  
APPLICATION – REVISED REVIEW SCHEDULE

Dear Mr. Elnitsky:

By letter dated July 28, 2008 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML082260277), Progress Energy Florida, Inc. (PEF) submitted its application to the U.S. Nuclear Regulatory Commission (NRC) for combined licenses (COL) for two AP1000 advanced passive pressurized water reactors pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR), Part 52. This letter transmits the Levy County Nuclear Plant (LNP) Units 1 and 2 COL application revised review schedule (Enclosure). The review supports the issuance of a final safety evaluation report (FSER) in October 2012.

On March 15, 2012, NRC issued a request for additional information (RAI) to PEF (Accession No. ML120550146) to address recent requirements resulting from NRC's response to Japan's March 11, 2011, Great Tohoku Earthquake and Tsunami. On April 12, 2012, PEF submitted a response stating that it would submit a revised final safety analysis report (FSAR) containing appropriate updated seismic information in August 2012.

Given these dates, the staff plans to issue the FSER in October 2012. The FSER issuance date is based on the following key assumptions:

- PEF meets the "Schedule for Option A Evaluations" milestones proposed in its April 27, 2012, public meeting presentation to NRC (Accession No. ML12115A315);
- PEF demonstrates that the appropriate updated seismic modeling results are completely bounded by the previous results; and
- The information submittals are complete and would not result in the need for additional RAIs.

Should your analysis indicate that the updated modeling results are not fully bounded, an alternate schedule will be developed based on your revised FSAR submittal revision dates.

It is noted that, should the pending merger involving Duke Energy be completed before NRC issues the FSER, PEF would need to submit a revised COL application containing appropriate updated financial and ownership information, and the staff would need to evaluate the updated information. Any resulting effect on the Levy schedule would depend on the timing of these submittals.

Should you have any questions regarding the safety review schedule, please contact Donald Habib at (301) 415-1035 or e-mail at [donald.habib@nrc.gov](mailto:donald.habib@nrc.gov).

Sincerely,

*/RA/*
